I would like to request a list of all marine pollution incidents related to ships in US waters that have been documented by the EPA since 1 January 1999.

For each incident I would like to know:

- The name of the vessel
- Type of pollution
- Date
- Outcome
- Location of the pollution incident

I would like the information to be provided to me in Excel format and I would like it to be as up-to-date as possible.

Kind regards,

I am requesting a copy of all " Outstanding and Unpresented Checks not submitted for payment " stale-dated outstanding check lists, which may also be known as Limited Payability Cancellation Report, specifically, businesses and vendors checks payable that are still outstanding after one year. These include undelivered checks and undelivered electronic payments.

Please include the three most recent fiscal years from December 30, 2019. Please eliminate from this list: (1) any checks or electronic payments that have been actually paid; and (2) any checks or electronic payments that have been previously canceled and therefore not actually outstanding. Please include any Electronic Fund Transfer (EFT) payments that were made or were attempted and failed. To simplify this request, you can eliminate all items less than \$100,000.00 in value.

Please include in the report for each Outstanding and Unpresented Stale-Dated Check:

1. Document or Check Number
2. Payment Date
3. Payment Amount
4. Businesses, Vendor or Suppliers Name and address
5. All relevant identification numbers

Basically, someone in your accounting or bookkeeping department reconciles all your agencies bank statements weekly or monthly -- concerning all your bank cash balances " and all the outstanding and unpresented checks not submitted for payment. 			in the late 1980s the epa made agreements with maryland over the Chesapeake Bay to reduce nutrients. Part of that meant the epa gave the state grants to install sewer. In 1988 the 4-1 sewer district for Keedysville and Sharpsburg was created in Washington county maryland. Gilbert commonwealth was used to consult and did a study. That study was used to create the boonsboro-keedysville-sharpsburg 201 facilities plan. Please provide the following documents. The grant application from Washington county maryland, the boonsboro-keedysville-sharpsburg 201 facilities plan, any grant applications, cost, drawings related to installation of the sewer.

To whom it may concern,

My employer, Toxicology Regulatory Services, Inc. (TRS) is a consulting firm that provides regulatory consulting services. We are assisting a client with the preparation of one or more follow-on registrations for an EPA-registered antimicrobial pesticide product. Accordingly, I am requesting a copy of the most recent Data Matrix (EPA Form 8570-35) for the following two EPA-registered products:

Gertrude (EPA Reg. No. 4822-613); and
Say Q (EPA Reg. No. 5813-109).

Gertrude is an antimicrobial pesticide product registered by S.C. Johnson & Son, Inc. The product was registered on June 26, 2018, by Alicia Ringger. The most recently EPA-accepted amended product label was on May 6, 2020, as submitted by Dr. Kelley McKissic.

Say Q is also an antimicrobial pesticide product registered by The Clorox Co. The product was registered on July 9, 2015, by Elisa Estremera. The most recently EPA-accepted amended product label was on June 11, 2018, as submitted by Ms. Evelyn Lawson.

Included with this request are attachments of the EPA-approved product labels for the two products described in the FOIA request given above.

EPA-R2-2020-006945	Rachel Tevlin	Atlantic Environmental Solutions, Inc	Dear FOIA and/or Environmental Protection Agency Associate, I live at 1510 1/2 Mission Street is South Pasadena, CA. I'm in dire need of someone to please have the compassion to honestly disclose the Los Angeles Hazmat test results and/or testing from any private environmental inspectors, for meth and other drug exposure to two neighboring units. Although I can't be sure, I have reason to believe that the testing was done by LA Hazmat on 1512 1/2 sometime this year between August 28th, 2020 and September 2nd, 2020. I don't know if LA Hazmat was allowed to test 1510 or not, as this space is owned by a different landlord who is very dishonest. I should add that I believe mitigation fogging was done several times in both spaces, so evidence likely no longer exist unless I am granted access to tests which were already done. Although I wanted to give you some dates to use as starting points for beginning your search, I need any and all drug test results for these two spaces which were done by any public or commercial entity at any point in time. I also ask that you please follow up after doing the test searches by seeing if anyone confessed and/or was found guilty by any law enforcement entity. I would never willingly expose myself to the kinds of drugs which neighbors have exposed me to through, via drifting 2nd hand air. As a result of this exposure and trying to seek help from my local police and fire departments, I have experienced devastating health effects as well as serious civil rights violations. Namely, I've gotten several heart attacks and many TIA's. My trust in the local South Pasadena Police and Fire departments has been destroyed. Citizens for Responsibility and Ethics in Washington (â€œCREWâ€) makes this request for records pursuant to the Freedom of Information Act (â€œFOIAâ€) 5 U.S.C. Â§ 552, and Environmental Protection Agency (â€œEPAâ€) regulations at 5 C.F.R. part 2604.

First, CREW requests records sufficient to identify the EPA officials who failed to file termination and combined annual/termination financial disclosure reports as indicated in EPAâ€™s 2018 agency ethics program questionnaire.

Second, CREW requests all communications related to the filersâ€™ failures to file the termination or combined annual/termination financial disclosure reports.

Third, CREW requests records sufficient to show whether the filers ultimately filed the termination or combined annual/termination financial disclosure reports.

Fourth, CREW requests records related to any referral EPA made to the Department of Justice over the filersâ€™ failures to file the financial disclosure reports.

EPA-R4-2020-006858	Mrs. Faith Alewine	Logic Environmental Inc	SEMS: GA0000407895: Camp Gordon Artillery Range- Area 2: Postal address is unavailable for the site, Marietta, GA 30062 In September 2002, the Ohio River Valley Water Sanitation Commission (ORSANCO) completed a Total Maximum Daily Load (TMDL) Report for PCBs for a 277-mile stretch of the Ohio River that begins at the Pennsylvania and West Virginia border near Chester, WV at Ohio River Mile 40.0, and extends downstream for 277 river miles to the border between Kentucky and West Virginia near Kenova, WV at Ohio River Mile 317.1. This stretch of the Ohio River forms the border between Ohio and West Virginia. The TMDL was developed by ORSANCO on behalf of USEPA, Region 3. ORSANCO is an interstate water pollution control agency for the Ohio River Basin. Because the TMDL was developed on behalf of USEPA Region 3, the TMDL (and other related records) would likely be maintained by USEPA Region 3. That said, because ORSANCO's membership includes the 8 states contributing drainage into the Ohio River (Illinois, Indiana, Kentucky, New York, Ohio, Pennsylvania, Virginia, and West Virginia), responsive records may also be maintained by USEPA Region 2 and Region 5. 			This is Emily Tian from REACH24H Consulting Group China. Recently we plan to apply for a pesticide registration to EPA. Our product is similar to ANTHIUM DIOXIDE (EPA registration number: 9150-2), PROOXINE (EPA registration number: 9804-9), SANICIDE-5 (EPA registration number: 58300-16) which all contains 5% Chlorine dioxide (PC code: 20503, CAS: 10049-04-4). Could you please sent us the data matrix documents for these pesticides so that we can know which data we can cite?

I request all responses to congressional Questions for the Record sent from EPA to Congress from Aug. 1 through Aug. 31, 2020.
In March 2009 Denverside Apartments, 1640 Boismenu Avenue, East St. Louis, IL 62207 had the apartment complex inspected for lead base paint hazard.

9/1/2020

At that time, we received a certificate certifying that Lead paint hazards have been controlled at the Denverside Apartments.
The certificate states that these apartments qualify for the exemption in 24 CFR part 35 and 40 CFR part 745 for target housing being rented or leased that is free of lead - based paint as defined in the rule.

EPA-R5-
2020-
006691 Ms. Doris McGilberry

Since that time for our Management Operations Review, we were asked for a copy of the letter stating that the entire property was completed. The property is still maintained in accordance to HQS and to date, we have had no incidences with lead paint issues.

Dear Sir or Madam:

This is a request for records under the Freedom of Information Act. 5 U.S.C. 552, et seq.

I request that a copy of the following documents, identified in Exhibit A submitted with this request, be provided to me.

As you know, FOIA requires agencies to release information unless it is specifically exempt from disclosure, and also requires agencies to release all reasonably segregable nonexempt portions of documents, i.e., to redact any exempt portions of documents and release the rest. See 5 U.S.C. 552(a)(8).

I am willing to pay fee for this request up to a maximum of \$100.00. If you estimate that the fees will exceed this limit, please inform me first.

EPA-R6-2020-006660	Michael Sellars		Hi, I would like to request surface water PCB concentrations (congener-specific will be better) and associated metadata from sites located in EPA Region 7. The data are needed for a nation-wide assessment of sources of airborne PCBs, including a modeling research study of the potential for emissions from soil and water at sites contaminated with PCBs. We are funded to do this work by the Superfund Research Program of the National Institute for Environmental Health Sciences (NIEHS/NIH). Our center has expertise in the measurement, modeling, This request is for a copy of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) section 18 emergency exemption application for the antiviral surface coating identified as SurfaceWise2 submitted by Allied BioScience, and all supporting materials, including but not limited to, correspondence, emails, and all other documents that discuss and approve the application submitted by the company. I would like to request access to the total set of safety, toxicity and efficacy studies/data submitted to EPA in association with an application for registration for the compound nootkatone which was recently approved under PC Code: 030806 I understand that per FIFRA section	8/31/2020

RE: Anthony Lamattina: Fatality at Lineage

DOI: 01/16/2020

☐

Dear Sir or Madam:

Our office represents Anthony Lamattina, the decedent, in the above-referenced matter. This incident occurred on January 16, 2020 and involved a fatality resulting from a hazmat level 2 ammonia leak inside a structure at Lineage Logistics, 3776 Taylorsville Highway, Statesville, NC 28625. As a result of this incident, we are requesting your entire investigative file.

This request is made pursuant to the North Carolina Public Records Law, at G.S. Â§132-1. If there are any fees associated with copying and/or searching these records, please notify us of the cost so that we can request a check to cover these fees. If you deny any or all of this request, please cite the specific exemption you believe justifies your refusal to release the information, identify the documents being excluded, and notify our office of any appeal procedures available under law to obtain the documents you withhold.

EPA-R4-2020-006588	Ms. Elizabeth A Martineau	Martineau King	We request you notify our office of your determination regarding this request, along with the reasons for that determination, within 15 days (excluding Saturdays, Sundays, and legal public holidays) of your receipt of this written request. If we do not receive written notification of an EPO was terminated due to falsely arresting my boyfriend at the time and stalking, harassing, intimidating, AND defaming mine and my fathers character, by knocking at each one of my neighbors doors after dark to ask if they had seen any illegal poaching going on with my dad and myself. Also pulling over my father and his friends to question them about me. This was brought up in the proceedings that Zachary Dougherty dealt with when fighting this criminal complaint which is why I would like every complaint and any document mentioning of Judge Phillip A. Contant in this particular case, whom released Dougherty on personal recognizance and set his next court appearance on Jan. 11, 2016. Dougherty was arrested Dec. 6, 2015 after assaulting two environmental police officers, Lt. Mike Scibelli and Officer Frank Soleimani, which ended up being falsely arrested and I believe received compensation, even though I was wronged in this case and the	8/27/2020

I request the document that outlines the capital planning process that EPA has implemented pursuant to the requirements in the Nov. 6, 2019 memorandum titled "Implementation of Agency-wide Real Property Capital Planning" by Office of Management and Budget Director Russell Vought.

This document is described in the following excerpt from that memorandum:

"Each agency, as defined per 5 U.S. Code Â§ 105, must provide the specified information described below to the [Federal Real Property Council] by August 15th of each year beginning in 2020. An FRPC working group will review the submissions based on information contained in Sections 2 and 3 below.

Each agency shall submit a document that outlines the capital planning process the agency has implemented pursuant to the requirements in this memorandum. The document should outline specific actions and components that make up the capital planning process, specifically addressing items in Section 2 of this document. The intended outcome of this document is to ensure that all agencies have a consistent, repeatable capital planning process that can support their mission. The FRPC working group will review the documentation and provide comments and feedback to the agencies to allow for continuous improvement in the capital planning process.

EPA-2020-006561	Kevin Bogardus	E&E News	Based on the FRPC's recommendation, OMB may waive future submission requirement of an agency's Capital Planning Process Documentation if it determines the agency's planning has matured to be fully compliant with this policy and OMB's Capital Programming Will pay fee as needed, please advise by email depending on anticipated or final fees. Dear Sir or Madam,

My firm represents Ironshore Specialty Insurance Company in a lawsuit pertaining to the sinkhole resulting from the collapse of the OG#3 salt brine cavern within the Napoleonville Salt Dome in Assumption Parish, Louisiana on or about August 3, 2012. It has come to our attention that tremors and other seismic activity; subsidence, erosion, collapse and other damage to real property; damage to improvements upon real property; and the release of liquid and gaseous pollutants preceded, or may have preceded, the formation of this sinkhole on or about August 3, 2012.

Pursuant to Louisiana's Public Records Law (La. R.S. 44:1, et. seq.), we request an opportunity to obtain copies of any and all records pertaining to reports of tremors and other seismic activity; subsidence, erosion, collapse and other damage to real property; damage to improvements upon real property; and the release of liquid and gaseous pollutants which occurred or which may have occurred, between January 1, 2012 and June 29, 2012, including but not limited to: reports made by residents and/or business owners of Assumption Parish; investigations of the same by any person or entity; data, evidence and/or findings generated by local, state and/or federal agencies with respect to such activity during that timeframe; and/or any other document, photograph or video related to any or all of the above.

Please advise if this request present a problem or if additional information is needed.

Thank you in advance,

I am requesting any and all information from my complaints starting July 5,2019 to current. I am requesting all MSDS and testing requirements from 321 south Salina st Syracuse ny and also the Utica job as requested has been from both contractors and been denied. Due to their failures to test the interior and exterior of both jobs and the EPA's refusal to investigate I am forced with proving you can not present these documents because they do not exist which proves the negligence from Daniel Lau and the entire EPA. This failure allowed my now deceased coworker to be sent back to finish the job without any PPE, training or knowledge of the 8 hazardous materials I To Whom It May Concern:

To Whom It May Concern,

I write on science and environment for US publications and am writing a book for Simon & Schuster on NORM/TENORM in the oil industry. My present research has led me to the request of specific documents from EPA:

1. In a 1999 Argonne National Lab report, DISPOSAL OF NORM-CONTAMINATED OIL FIELD WASTES IN SALT CAVERNS (<https://www.osti.gov/servlets/purl/3003>) reference is made to a set of letters sent in 1996 between Ground Water Protection Council and EPA regarding the issue of 'the types of waste that can be disposed of in class II injection wells.' The letters are referenced as follows in the Argonne report, and I am looking for a copy of each of these letters:

a. "In February 1996, the Ground Water Protection Council asked the EPA to clarify that all exempted oil field wastes can be injected into Class II wells" - PLEASE PROVIDE A COPY OF THIS LETTER

b. "In June 1996, the EPA responded to the request in a letter from Robert Blanco, Acting Director of EPA's Ground Water Protection Division"

This letter is cited as follows in the Argonne report, "Blanco, R.J., 1996, letter from Blanco, Acting Director of EPA's Ground Water Protection Division, Washington, DC, to M.J. Paque, Executive Director of the Ground Water Protection Council, Oklahoma City, OK, on the types of waste that can be disposed of in Class II wells, June 26" - PLEASE PROVIDE A COPY OF THIS LETTER.

2. I understand Lotus LLC operates a NORM disposal facility in Andrews County Texas and that in October 2016 Lotus emailed EPA for clarification in determining whether oilfield waste could be imported to the United States, and that in November 2016 EPA responded with a letter stating oilfield waste could indeed be imported into the United States - I'VE ATTACHED A COPY OF THIS LETTER, PLEASE SEE PAGE 3.

I have complained that a neighbor applies Ortho Ground Clear in excess to kill all vegetation in concentrated areas and areas prone to runoff and directly effecting wildlife, aquatic life, and potentially harming the water that directly effects a holding pond.

Ortho has a product available on store shelves that does contain the purported carcinogenic properties we all have been made aware of and I am very concerned that property owners are not following guidelines as per the label. My concern is the product may kill natural presence of other living plants ie. jack in the pulpit, moss, fungi, etc.

The other topic of conversation at stake is weather or not the adjacent property owner is across or within the buffer zone to apply the material.

Lastly, I find that Ortho Ground-clear is a product to be taken seriously, should not be available in concentrate form and the owners a statement on the label should make property owners aware of the following: if this product is incorrectly applied and it does harm plants, vegetation or effect natural wildlife, that the part applying the material will be held liable in any civil court proceeding.

Dear Sir or Madam:

Pursuant to the Federal Freedom of Information Act (5 U.S.C 552 et seq.) dealing with the examination and duplication of documents maintained by public agencies, Langan is requesting any information or copies of files regarding environmental conditions on the above property, such as environmental permits, notices of violations, spill/discharge incidents, storage or disposal of hazardous substances, Underground Storage Tanks (USTs), Leaking Underground Storage Tanks (LTANKs), asbestos abatement, and any other environmental reports that your department may have.

The Subject Property is located at 65 Franklin Street in New York, New York. The Subject Property consists of one lot identified as New York City Tax Block 171, Lot 7. The Subject Property is bordered by Franklin Street to the north, Block 171, Lot 5 to the east and south, and Broadway to the west.

Please contact me at 212-479-5400 with any questions or send your response to my attention at kracanelli@langan.com or at the below address:

Langan Engineering and Environmental Services, P.C.
21 Penn Plaza
360 West 31st Street, 8th floor
New York, New York 10001-2727

Thank you in advance for your cooperation.

Sincerely,

To Whom It May Concern:

I am looking for information regarding, specific air permits, inspection reports, violation notices, leaking underground storage tanks (LUST) incidents, site remediation program enrollment, compliance reports, ground-water and soil contamination information, sampling results, and incident notices for any facility at the following address:

Two Parcels Southeast of the Intersection of Essington Road and Hassert Boulevard,
Bolingbrook, IL 60490

This property has not been assigned an official address; however, it has been assigned the parcel numbers of 0701241000060000 and 0701241000050000. If it is possible to locate and provide any information for the aforementioned sites, I would appreciate it.

I am looking for any environmental records (i.e. Tanks, USTs, ASTs, spills, hazardous waste, brownfields) pertaining to all sites related to 4513 Western Ave, Lisle IL. (Parcel ID 0804405027)

Any written determination made by Region 6 Air and Radiation Division pursuant to 40 CFR 63.43(f)(5) where the deadline for such determination under 40 CFR 63.43(f)(4) was July 21, 2020.

Have there been any issues arisen when fuel terminals proposing to be built;

1. Within 1.5 miles of residential schools . One of those schools was just built and opened last year.

2. Within several hundred yards uphill of a water treatment facility, and a watershed serving 3 counties.

3. Titan Industries has been quietly moving this through the permitting phase and keeping the community out of these discussions. It is in Dickson County, Burns, Tennessee where I am a resident. This is an environmental disaster waiting to happen. We need your help. Thank

The EPA investigator was Matthew Stratton and the AUSA was Seth Wilkinson in the Seattle US attorney's office. On 8/20/17, a salmon farm owned by Cooke Aquaculture Pacific collapsed, allowing about 300,000 salmon to escape. Within days, Stratton started an investigation, with Wilkinson as his contact point. The subject was potential violations of pollution regulations under the CWA and the targets were Cooke Aquaculture Pacific and at least one of its employees, Innes Weir. The investigation continued through the summer and fall of 2017. It was closed down by EPA in Washington because of a determination that escaped fish did not constitute pollution under the criminal sections of the CWA. EPA-R8-2020-005734	Mrs. Jan F Gadow	Weisbrod Matteis & Copley	On April 17th a NCDEQ agent performed a surprise inspection at Southport Marina based on a complaint that was filed. She found no violation and our business was closed due to circumstances surrounding the COVID-19 pandemic. She told people on property that there was a complaint about oil in the ditch and dangerment to the wildlife and she was there to investigate. We picked her up on our security cameras and reached out to Dan Sams of NCDENR to find out who the agent was and what triggered this inspection. He explained that DEQ housed more than 20 divisions other than the one he represented, the Division of Energy, Mineral and Land Resources. He also said that he wasn't aware of this particular inspection but he had included a number of Division Regional Supervisors in the event someone is aware of this inspector. Very shortly afterwards Megan Faulkner called and identified herself as the agent that came to Southport Marina and proceeded to tell me why she was there. First and foremost she said there were NO violations. I ask her how something like this could happen. We work extremely hard to make sure we do all things environmentally to the tee. We have maintained and are certified as a North Carolina Clean Marina so this false complaint really offended us. Megan understood and explained that the complaint first went to the EPA in Atlanta then funneled down to her supervisor Tom Tharrington. Tom then sent her to Southport to investigate.	7/9/2020

EPA-2020-005646 Laura Fell ERM

7/7/2020

ERM is first and foremost interested in receiving any documents that do not contain confidential business information (CBI) as soon as Reuters is seeking information (through email correspondence) about projects identified by the agency in need of fast-tracking under the June 4 Executive Order (EO) "Accelerating the Nation's Economic Recovery from the COVID-19 Emergency by Expediting Infrastructure Investments and Other Activities." The list of projects was due to be sent to the OMB within 30 days after the EO was issued. We would also like information about emergency NEPA procedures that the agency seeks to expedite to support economic recovery in light of the coronavirus.

Hello, I am a journalist for The Intercept. I would like to file a Freedom of Information Act for news gathering purposes.

I am requesting copies of written agreements and reports filed under the Intergovernmental Personnel Act (IPA) for all officials appointed under this program during the period of Jan. 21, 2017 through June 25, 2020 to this agency.

I am seeking any filings related to Â§334.106, Â§334.107, Â§334.108 and Â§334.103 of the law, which include any written agreements between personnel & agency outlining the responsibilities for personnel, organization documents submitted to obtain eligibility certification under the program, and documents submitted for personnel in compliance with the IPA program, including ethics statements.

I am also seeking a list of names of officials hired through the IPA program to this agency.

As a member of the new media, I am seeking an exemption to any fees related to this request. If fees are incurred, please notify me if fees related to this request exceed \$200. I can be reached by phone at 202-394-9170 and I can be reached by mail at Lee Fang, First Look Media, 604 Mission St., 7th Floor San Francisco, CA 94105. If possible, please send any responsive documents electronically over email to lee.fang@firstlookmedia.net

Please do not hesitate to contact me if you have any questions or concerns regarding this matter.

Thank you,

Dear Sir,

I would like to use 2 figures (Figure 4-15 and 4-16) from your publication "Control of Gaseous Emissions, Student Manual APTI Course 415, Third Edition" Author: John R. Richards, Ph.D., P.E., Air Control Techniques, P.C. and I need copyright permission, please? I tried to find it in the website but couldn't. I will be thankful if you could advise me how to get permission to use these 2 figures in my review paper. Thank you in advance.

Dear FOIA Officer:

By this letter and pursuant to the Freedom of Information Act, 5 U.S.C. Â§ 552, we hereby request that the Environmental Protection Agency (â€œEPAâ€œ) provide copies of the following records:

1. Any and all CERCLA Â§ 104(e) information requests propounded by EPA concerning the Orange County North Basin site; and
2. Any and all responses to CERCLA Â§ 104(e) information requests that EPA has received concerning the Orange County North Basin site.

To the extent that there are any documents or portions thereof that EPA determines are exempt from disclosure and seeks to withhold, please state the names and titles or positions of each person responsible for the denial of such request pursuant to 5 U.S.C. Â§ 552(a)(6)(C)(i).

It is our understanding that, by submitting this single request to your office, you will notify all appropriate divisions and departments within EPA to produce any and all responsive documents. If this is not correct, please contact me immediately. Also, we would appreciate a response to this request as soon as possible and within the 20 days provided by 5 U.S.C. Â§ 552(a)(6)(A)(i).

We are willing to authorize fees up to \$250. Please call me at (213) 680-6427 regarding authorization for any additional fees and/or to discuss copy arrangements.

Thank you for your assistance. Please contact me if you have any questions or need additional information to conduct your search.

			<p>"Clean Water State Revolving Fund. " The Committee recommends \$1,784,000,000 for the Clean Water SRF, requires at least 10 per-cent of funds to be used for green infrastructure or energy efficiency projects, reserves \$2,000,000 for technical assistance and training grants, and requires that 10 percent of grant funds be used for additional subsidization. The Committee notes that wastewater treatment facilities are some of the largest industrial users of electricity in the nation, and has provided Green Project Reserve (GPR) funds as part of the Clean Water State Revolving Fund to encourage states to improve energy and water efficiency at treatment facilities. In order to better track the ways in which states are utilizing GPR funds, the Committee directs the Agency to develop a uniform reporting framework which states may use to report their GPR spending, and urges the Agency to include tools and metrics that allow states to quantify estimated energy and water savings benefits of these in-vestments. The Agency is directed to brief the Committee on its progress in developing this guidance within 180 days of enactment."</p> <p>Please see page 97 of House Report 116-100 (https://www.congress.gov/116/crpt/srpt123/CRPT-116srpt123.pdf).</p> <p>I also note the joint explanatory statement of Division D of the Further Consolidated Appropriations Act, Public Law No: 116-94, that requires House Report 116-100 be complied with.</p>

I request the report described in the following excerpt from House Report 116-100:

"Superfund Cleanup. â€” The Committee recommends \$822,073,000, an increase of \$32,333,000 above the combined funding levels provided in Title II and Title IV in fiscal year 2019, and \$153,790,000 above the request. The Committee urges the Agency to prioritize work at sites where activities will result in reduced human expo-sure to toxic substances. The Committee expects the additional funding will also support pipeline activities such as remedial investigations, feasibility studies, and remedial designs which are critical steps prior to construction. The Committee also encourages the Agency, within 180 days of enactment of this Act, to submit a report on the status of each time-critical removal action for which Federal funds greater than \$1,000,000 have been expended since January 1, 2017, along with the Federal cost of clean-up efforts, whether responsible parties have faced criminal charges, and the amount of recovered Federal dollars. Hi,
I would like to request surface water PCB concentrations (congener-specific will be better) and associated metadata from sites located in

EPA Region 2:
General Motors, Grasse River, Hudson River, Onondaga Lake, Richardson Hill Road, and York Oil.

The data are needed for a nation-wide assessment of sources of airborne PCBs, including a modeling research study of the potential for emissions from soil and water at sites contaminated with PCBs. We are funded to do this work by the Superfund Research Program of the

EPA-R2-2020- National Institute for Environmental Health Sciences (NIEHS/NIH). Our center has expertise in the measurement, modeling, remediation, toxicology, and exposure assessment of PCBs and has been funded since 2006. By the way, we contacted Larisa Romanowski.

I am requesting transcripts of all interviews conducted as part of EPA OIG project number OA&E-FY19-0348, resulting in report number No. 20-E-0177 (EPA Toxic Substances Control Act Consent Orders Need Better Coordination). A copy of the report is attached. The report specifically mentions interviews were conducted with staff from the OCSPP, OECA, and Region 4. The EPA has hired Exponent - an engineering and consulting firm to help prepare a defense for a federal trial. This is a citizen's trial brought through the Toxic Substances Control Act. The trial is about fluoride in drinking water. As I write this on 6-10-20 this bench trial is now going on in a federal court in San Francisco.	6/10/2020
			I request information on all the times the EPA has contracted with Exponent to provide consulting or other services, if there are any, other than this federal trial. If the EPA has contracted with Exponent for other services, I'd like to know details of each time the EPA has hired Exponent and for what purpose, as well as how much Exponent was paid for each service.

EPA FOIA Officer:

I am writing to you today to submit a request under the Freedom of Information Act. I am requesting that a copy of the following documents be provided to me:

1. The application materials submitted by City of Dothan, Alabama to the Brownfields Cleanup Grant program for which they were awarded \$297,000. This grant was awarded in 2020 with the purpose of cleaning up a former electrical substation located at the corner of Linden and Whiddon Streets. This award was issued under the EPA Region 4 Brownfields Team.

I request that the information I seek be provided in electronic format, and I would like to receive it via email, if possible. If that is not possible, please contact me and let me know the alternative methods of delivery, and I will pick one.

I have included a telephone number at which my colleague or I can be contacted during the hours of 9 AM ET to 5 PM ET, if necessary, to discuss any aspect of my request.

Thank you for your consideration of this request.

Re: Freedom of Information Act Request

To Whom It May Concern:

This is a request under the Freedom of Information Act.

I request that a copy of Rick Keigwin's work calendar between the dates of Feb. 15, 2020, to June 4, 2020. Keigwin is the Director of EPA's Office of Pesticide Programs.

In order to help to determine my status to assess fees, you should know that I am a representative of the Bloomberg News Organization, also including Bloomberg Law.

I am willing to pay fees for this request up to a maximum of \$25. If you estimate that the fees will exceed this limit, please inform me first.

I request a waiver of all fees for this request. Disclosure of the requested information to me is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the Environmental Protection Agency and is not primarily in my commercial interest.

Re: Freedom of Information Act Request

To Whom It May Concern:

This is a request under the Freedom of Information Act.

I request that a copy of Alexandra Dapolito Dunn's work calendar between the dates of Feb. 15, 2020, to June 4, 2020.

In order to help to determine my status to assess fees, you should know that I am a representative of the Bloomberg News Organization, also including Bloomberg Law.

I am willing to pay fees for this request up to a maximum of \$25. If you estimate that the fees will exceed this limit, please inform me first.

I request a waiver of all fees for this request as the calendars of EPA senior staff are supposed to be publicly available, but in Dunn's case no updates have been made since Feb. 15, 2020.

EWG is requesting an electronic copy of all chemical and microbial contaminant data obtained in compliance and non-compliance testing of public water supplies for samples taken in 2018 and 2019 in the State of Wyoming.

Data Requested:

Contaminant monitoring results for raw/source and finished water â€” including detections, non-detects and results below the level of detection. Each result record should include a sample identification, water supplier identification, sampling date, contaminant name, contaminant concentration, units, qualifiers, sampling location (e.g. well name or intake designator), type of water sampled (e.g. raw/source or finished), test method, and any other available sampling designator (e.g. distribution system or point of entry).

System information (PWS ID, system name, address, PWS type (community, non-community, etc.), population served, primary source (GW, SW, etc), city & county served, and percentages of ground/surface water or purchased ground/surface water (if available).

Please include at least the following information. If it is easier to not limit the data dump, please do so to hasten the process.

- water suppliers â€” community, non-transient non-community, and transient non-community water suppliers

At a minimum, this would include:

1. A working Excel spreadsheet, searchable and sortable, containing all the individual polychlorinated biphenyl (PCB), dioxin and furan congener data for both 2018 and 2019 used to calculate the values in summary tables published for public access.
2. All laboratory electronic data deliverables associated with the samples for: dioxins and furans; lipids; moisture content; PCB congeners, including all fish tissue samples; and associated quality assurance and/or quality control (QA/QC) samples associated with the tissue results.
3. All field notes from both 2018 and 2019 sampling events maintained by EPA, EPA personnel, EPA partner organizations, and/or EPA contractors.
4. All bench sheets (or equivalents) from any laboratories performing sectioning and sample preparation in both 2018 and 2019.

To the extent that there are any documents, or portions thereof, which EPA determines are exempt from disclosure and seeks to withhold, please provide a listing of such documents along with the names and titles or positions of each person responsible for the denial of such request as required under 5 U.S.C. Â§ 552(a)(6)(C)(i).

I am an Assistant Professor at the Norwegian School of Economics. Currently I am working on a project related to the government correspondence.

I am seeking a list of correspondences between the Environmental Protection Agency and members of Congress and their offices. Specifically, I would like to know what Congressional offices contacted the Environmental Protection Agency from 01.01.2001 to 12.31.2019. An entry in such a log generally includes:

- 1) The name of the member of Congress who contacted the Environmental Protection Agency
- 2) The date the Environmental Protection Agency was contacted
- 3) The subject of the inquiry. (i.e. What kind of information did the member request? Or what was the correspondence about?)

Date of Incident: November 27, 2019.

I am requesting information regarding unwanted releases of butadiene from the TPC facility listed above. Primarily I understand that in the five year period prior to the Nov 27, 2019 explosion butadiene had been released into the atmosphere on various dates which resulted in an agreement between the EPA and TPC to install Air monitors. I would also like to request any reports or citations generated as a result of the air monitoring agreement between EPA and TPC.

Good Morning,

I am conducting an environmental assessment of the Willet Tank Farm located on School Canyon Road, Ventura, CA 93001. There were only two records available on the Ventura County Department of Environmental Health online database including a records for a 50 barrel release of crude oil on July 26, 2000. There were no additional follow up records for this release.

EPA-2020-004930	Alicia Jansen	Stantec Consulting Services Inc.	I would like to request any available records (i.e. inspection notes, notices of violation, hazardous materials business plans/permits, groundwater monitoring reports, soil vapor reports, no further action letters, etc) for the Property. In her March 26, 2020 memo on "COVID-19 implications for EPA's enforcement and compliance assurance Program," Susan Parker Bodine wrote that "entities should make every effort to comply with their environmental compliance obligations," but "if compliance is not reasonably practicable, facilities with environmental compliance obligations should" take several steps, including acting to minimize the effects and duration of the noncompliance and identifying the nature and dates of the noncompliance as well as how COVID-19 led to it. That information was to be documented, per the memo.

Pursuant to the Freedom of Information Act, 5 U.S.C. Section 552 et seq. ("FOIA"), I am requesting all correspondence sent to EPA's Office of Enforcement and Compliance and/or the agency's compliance and monitoring programs citing the March 26 memo, as well as all communications between EPA and corporate or other government agencies regarding the March 26 memo.

If possible, I would like to receive the information in electronic format.

If my request is denied in whole or part, I ask that you justify all deletions and denials by reference to specific exemptions of the act. This request is segregable, and your agency may not withhold entire records because of one section you believe is exempt from disclosure. I reserve the right to appeal your decision to withhold any information or to deny any waiver of fees.

As I am making this request as a journalist and this information is of timely value, I would appreciate your communication through phone (202.905.3257) or email (jdrouhy1@bloomberg.net) rather than by postal mail if you have any questions regarding this matter.

			Hello,	
			This is Michael A. Ayele sending this message though I now go by W. You may call me W. I, W am writing this letter to file a FOIA/PA request for records. (...) On September 2015 I was declared missing by Montgomery County Media Publication Sonia Burke following numerous calls I had made to have marijuana legalized. USA today also declared me missing. I was also declared missing by Arizona Central, Democrats and Chronicles, Patch and WUSA. I am not contacted by the media before being declared missing. The content of these articles if you have previously read them for your information is mostly false, libelous, offensive and defamatory. What was correctly noted is that I frequented libraries in the Silver Spring, MD; Arlington, VA and Washington D.C area. My request for records are the following. 1) What formal and informal ties does the Environmental Protection Agency (EPA) have with Arlington Public Library, the Callaway County Public Library, the Holocaust Memorial, the Italian Culture and Arts Museum, the Los Angeles Public Library (LAPL), the Martin Luther King Library, the Missouri River Regional Library (MRRL), the Montgomery County Public Library (MCPL), the National Museum of the American Indian and the San Francisco Public Library (SFPL)? 2) Have either employees and/or legal representatives of the media, law enforcement agencies, museums or public libraries in the Silver Spring, Maryland; Arlington, Virginia and/or the District of Columbia ever gone into communication with employees and legal representatives of the EPA about I, W for any reasons mentioned in this request for records or for I would like to request a copy of the following document:

			<p>Re: Freedom of Information Act Request</p>	
			<p>Dear Chief FOIA Officer:</p>	
			<p>This is a request under the Freedom of Information Act.</p>	
			<p>I request that a copy of the following publicly available documents be provided to me: the Class VI Underground Injection Well (UIC) permit application that was submitted by Clean Energy Systems to EPA Region 9, as well as any attachments to or technical documents in support of the application. We understand that Clean Energy Systems submitted its permit application to EPA in February 2020 for the long-term storage of carbon dioxide captured from a project located in California.</p>	
			<p>It also is our understanding that the requested Class VI permit application and accompanying supporting materials are public record once submitted. Importantly, we are not requesting any documents or other information that may have been identified as confidential business information (CBI), or confidential information more generally. We would only like to obtain for review the non-confidential portions of the application and supporting documentation.</p>	
			<p>It is our understanding that the other eight exemptions do not apply in this matter, nor do the three exclusions.</p>	
EPA-R9-2020-004854	Mr. A.J. Singletary	Van Ness Feldman LLP	<p>We hope that the application and supporting documentation can be submitted to me electronically, thereby eliminating the need for fees related to a paper production. However, if fees are required, I am willing to pay fees for this request up to a maximum of \$100. If you estimate that the fees will exceed this limit, please let me know and we can discuss.</p>	5/22/2020

Re: Freedom of Information Act Request

Dear Sir or Madam:

Pursuant to the Freedom of Information Act (FOIA), as amended, 5 U.S.C. §§ 552, et seq., and the United States Environmental Protection Agency's (EPA) rules issued thereunder, 40 C.F.R. Part 2, COGENCY GLOBAL INC., hereby requests from EPA a copy of the original submissions for the Toxic Substances Control Act (TSCA) Inventory for the following substance:

39979-46-9 2H-Pyrrole-2,5-dione, 1,1'-(2,2,4-trimethyl-1,6-hexanediyl)bis-

Documents responsive to this request likely will be maintained by the Office of Pollution Prevention and Toxics, Industrial Chemistry Branch. This office is identified solely to assist EPA in responding to this request and is not intended to limit the scope of this request in any way. Documents responsive to this request may be maintained by other EPA offices and divisions, and any such documents expressly are included within the scope of this request.

COGENCY GLOBAL INC. understands that some of the documents responsive to this request may have to undergo confidential business information (CBI) review. COGENCY GLOBAL INC. requests that any responsive documents that do not have to undergo CBI review be provided to us as soon as possible.

EPA-2020-004810	Nadir Ameir	Cogency Global Inc.	If for any reason you determine that portions of the requested information are exempt from disclosure under FOIA, please delete the allegedly exempt material, inform us of the basis for the claimed exemption, and furnish us with copies of those portions of the information	5/20/2020

To Whom It May Concern:

Pursuant to the Freedom of Information Act, I hereby request the following records:

Copies of all information requests sent by EPA Region 1 under Section 114(a) of the Clean Air Act from 2010 to present.

Please feel free to reach out to me with questions. You can reach me at 207-576-0231 or at sabrina.shankman@insideclimatenews.org

The requested documents will be made available to the general public, and this request is not being made for commercial purposes.

In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not.

Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires.

Sincerely,

Please provide a copy of the EPA internal data matrix for Fenoxaprop-P-Ethyl Technical EPA Reg. No. 35935-95 for Nufarm Limited.

Thanks

This is a request under the Freedom of Information Act.

I request that a copy of the following documents containing the following information be provided to me: UFO, UFO's, Unidentified Flying Objects, Aerial Phenomenon, UFOB™s, Aliens, Spaceship, Flying Saucers, Extraterrestrials, flying discs, glowing orbs in the sky, spacecraft, unidentified submerged objects, USO, Strange Sightings, Bigfoot, Sasquatch, Yeti, unexplained moving objects, unexplained phenomenon, and ghosts.

In order to help to determine my status to assess fees, you should know that I am a private individual seeking information for personal use only, not for a commercial use.

I am willing to pay fees for this request up to a maximum of \$150. If you estimate that the fees will exceed this limit, please inform me first.

Thank you for your consideration of this request.

			<p>Hello – There was PCB contamination associated with the Northwest Airlines (NWA) hangar, which used to be located where the Port of Seattle building is in the new SeaTac International terminal. PCB contamination was located there, and cleaned up. NWA apparently used to store PCB-containing transformers at the site, and they leaked. We need to find out when the PCBs got into the soil. Do you keep PCB spill reports or PCB transformer records? We need to also know when the transformers were put into or taken out of service re the address and site location below:</p> <p>SEA-TAC NW Airlines Front Hangar SEA TAC International Airport NW, Seattle, WA 98158</p>

Dear Sir or Madam,

I am writing to make a FOIA request for data pertaining to fuel consumption by throttle notch for the locomotive engine families listed in the Annual Certification Data for Locomotive Engines, Idle Control Systems, and Non-OEM Components, which may be found via this link: <https://www.epa.gov/compliance-and-fuel-economy-data/annual-certification-data-vehicles-engines-and-equipment>

If I can provide any clarification that will help expedite your attention to my request, please contact me at 11032245@cc.peralta.edu

It is my understanding that these documents exist in an electronic file format, as individual .pdf or .zip files, and I request that a copy be provided to me in this format.

I request a waiver of all fees for this request. Disclosure of the requested information to me is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in my commercial interest. I am a student in a diesel mechanics program, and I will be using this document to augment my studies. I have seen many reports from your agency about the challenge faced in recruiting staff with railroad expertise, and I am guiding my studies to meet this demand.

If a fee must be assessed, and you estimate that it will be in excess of \$10.00, please inform me via e-mail at 11032245@cc.peralta.edu before you duplicate the records.

I know that priorities and the availability of staff time have changed in the current crisis, and I am glad to accept a longer response time than that specified in the FOIA statute.

Re: Freedom of Information Act Request

Dear Freedom of Information/Privacy Office:

This is a request under the Freedom of Information Act.

I request that a copy of the following documents or documents containing the following information be provided to me:

All documents since September 2019, pertaining to "List N: Disinfectant of Use Against SARS-CoV-2" including the below quoted terminology:

"4959-16" "Active Ingredient/s" "Iodine"

It was posted at https://www.epa.gov/pesticide-registration/list-n-disinfectants-use-against-sars-cov-2?fbclid=IwAR0dumuy1TLxJREkcT_wYfH9NswfoB7DKtWy-dHx-_NTEsbqzQX3bQ8wp5I

Additionally, want a copy of the document that specifically included "4959-16" with the "Active Ingredient/s" "Iodine" from the above web address that has since been changed.

EPA-2020-
004373 Laura Allred

In order to help to determine my status to assess fees, you should know that I am an individual seeking information for personal use and not 4/27/2020

I request records detailing invitations to reporters for an EPA-hosted conference call with EPA Administrator Andrew Wheeler held on either March 23, 24, 25, 26 or 27 to discuss the March 26, 2020 memorandum titled "COVID-19 Implications for EPA's Enforcement and Compliance Assurance Program."

I also request a voice and/or video recording of this conference call.

This conference call is described in the following excerpt of "EPA backs off enforcing pollution rules as virus strains work," Jennifer Dlouhy, Bloomberg News, March 27, 2020 (<https://phys.org/news/2020-03-epa-pollution-virus-strains.html>):

"We expect facilities to comply with their obligations under the law," EPA Administrator Andrew Wheeler told reporters on a conference call. "But where the impacts of COVID-19 make that impracticable, the EPA will apply enforcement discretion."

The following individuals at EPA are likely to have responsive records to my request:

Corry Schiermeyer
Nancy Grantham
Molly Block
Jessica McFaul
Andrea Woods

Please consider any emails, handwritten notes, letters, memorandums, PowerPoint presentations, Slack chats, slide decks, text messages, voice and video recordings as well as other documented forms of communication that detail these invitations as well as document this conference call as responsive records to my request.

			I am writing to request a series of records under the Freedom of Information Act.	
			I hope to obtain copies of any and all documents that detail emissions from two paper mills in Mobile, Alabama, from the first available date through the year 1987. The facilities in question are International Paper (site ID ALD008161861) and Kimberly-Clark (also known as Scott Paper " site ID ALD008149858).	
			I recognized that this request is quite broad. If necessary it can be narrowed down two sets of specific documents I have identified that address the matter in question:	
			1. A study the EPA conducted after a January 1970 hearing, wherein it found the Mobile Bay to be "grossly polluted," and the Mobile Bay cleanup plan that followed (which was approved by the EPA chief at the time, William Ruckelshaus, in March of 1971). (A relevant news clipping is attached.)	
			2. Any and all discharge permits the EPA may have granted to these companies (a notice of a 1974 permit is attached as an example).	
			I would also like to request copies of any documents related to violations of environmental laws (e.g. the Clean Air Act or the Clean Water Act) that the mills may have committed, from the earliest date available up to the present day (April 22, 2020).

In order to maintain our professional standards and complete this investigation, review of your files is extremely important.

Generally we are interested in files related to historic property owners and operators, permits taken out by site owners/operators/sub-contractors; fires reported on site, police calls to the property, connections to town sewer/water, municipal violations, and NJDEP investigations.

Specifically we need to review:

Construction/Plumbing/Fire permits issued on the property;
Fire Department Incident Reports;
Police Department Incident Reports;
Municipal violations;
Certificate of Occupancies;
Copies of correspondence with the NJDEP;
Municipal water and sewer connections.

EPA-2020-004320	Matthew Chmielarz		We are aware of the time, expense and burden our request has on your department. We would be glad to ease that burden in any way	4/17/2020

Pursuant to the Freedom of Information Act, we request the following documents:

1. All requests that U.S. EPA issued in or about December 2019 to any recipient under the authority of Section 114 of the Clean Air Act as part of the "Ethylene Oxide Commercial Sterilization Section 114 Survey." (See <https://www.epa.gov/stationary-sources-air-pollution/section-114-survey-instructions-ethylene-oxide-emissions-standards>.)
2. The public (non-CBI) versions of all responses U.S. EPA received in response to information requests that U.S. EPA issued as part of the "Ethylene Oxide Commercial Sterilization Section 114 Survey." (See <https://www.epa.gov/stationary-sources-air-pollution/section-114-survey-instructions-ethylene-oxide-emissions-standards>; see p. 4 of the linked-to pdf document for a description of requested non-CBI submissions.) This request includes Excel documents submitted to U.S. EPA, as well as other documents (whether embedded in the Excel documents or provided separately).

Please note that this request does not include any confidential business information; Item #2 of the request seeks only the non-CBI portion of each respondent's submission. We would prefer an electronic copy of the requested records. For Item #2 of the request, we would prefer to receive the same file format that was submitted to U.S. EPA.

EPA-2020-004017	Mr. Michael Ayele	Association For The Advancement of Civil Liberties	I was detained in the McDonalds located between the Food & Drug Administration (FDA) and White Oak Library in March 2015. I was detained at the McDonalds located 11146 New Hampshire Ave, Silver Spring; MD. and then taken to Washington Adventist University Hospital (also known as Adventist Healthcare, White Oak Medical Center). My personal health information (PHI) from Washington Adventist University to this day has not been disclosed. Will you join me in moving to call upon Washington Adventist University Hospital to promptly disclose my PHI? Have you had the opportunity to read Johnatan Metzl book entitled "Schizophrenia: The Protest Psychosis?" Will you join me in moving to implicitly & explicitly denounce others looking to use the diagnosis of schizophrenia to socially alienate, delegitimize, discredit, exclude, marginalize & ostracize others? I am just concerned: I am worried. The Department of Justice (DoJ) had published their investigation of the Ferguson Police Department pursuant to violent crime and omnibus act the same month I was detained. Took place in Richmond, VA a gun rally on January 21st 2020. Virginia Governor Northam had previously declared a State of Emergency. I have been in on and off correspondence with the U.S Court of Appeals located 1100 East Main Street, Richmond; VA. Good Afternoon,

I'm doing a Phase I environmental site assessment on a property in Conway, Arkansas and I've found 4 US Brownfields (found on the Cleanups In My Community map) within half a mile of it that I was hoping you would have more information on. The sites are:

- 1) The Earl Rogers Building at 1002 Oak Street
- 2) Mines Service Center at 714 Harkrider Street
- 3) Residential Building (Listed as Habitat For Humanity House #21) at 503 Monroe Street
- 4) Satterfield Station at 700 Front Street

I would like to know:

- 1) Is there a reason all of the Phase I's were started on the exact same date?
- 2) Do you have the Phase I's available for me to view? If not, was there any contamination found/suspected on site?
- 3) If there was contamination, was there a cleanup?

I'd appreciate any help or information you might have on these properties.

EPA-2020-003989	Mr. Thomas Schichtl	Nabholz Environmental Services	Thank you for your help! Boiler records regarding asbestos at the Naval Reactor Facility in Idaho. Also regarding the attached document please provide the below documents for dates from 1966-2004. For many years, NRF and INL subcontractors have conducted environmental monitoring to demonstrate that NRF is being operated in accordance with environmental standards. The results have been published in the NRF and INL annual reports provided to federal, state, and local officials. These publicly available reports demonstrate that NRF's monitoring practices meet and are often more strict than the requirements of applicable laws and regulations. The monitoring results confirm compliance with environmental standards. thank you	4/3/2020

			Wild Horse Observers Association is a non-profit 501 c3 since 2004. 1) The information we are requesting is important to all wildlife advocates including wild horse advocates. 2) The public needs to understand the scientific results and quality of the data provided by Friends of Animals regarding the effects of PZP or Zona Stat H on wild horses which is now moving forward due to the court. 3) The public needs to understand the current legal and scientific status of PZP legally given that many of us are using it on wild horses and advocating using it. 4) Zona stat H is currently being used and or advocated for use on many herds and we and the public are commenting through NEPA process and on working groups with the USDA FS and BLM regarding PZP use for managing herd population. It is also being used in NM. 5) This is in no way a commercial interest. We are a non-profit and do not even take salaries. 6) This is a public interest request 100%. We will distribute the information electronically to the public at no charge.

Re: Freedom of Information Act Request

Dear National EPA FOIA Office:

I kindly request, under the Freedom of Information Act, that a copy of the web logs of the US Greenhouse Gas Reporting Program (US GHGRP) be provided to me in a Comma Separated Value (CSV) format. For each web visit, these would contain (or allow me to obtain with some additional processing on my end):

- 1) the date and time of the visit.
- 2) the IP address of the visitor.
- 3) which US GHGRP dataset they downloaded, if any (i.e., any of those available at <https://www.epa.gov/ghgreporting/ghg-reporting-program-data-sets>).
- 4) if they visited the Facility Level Information on GreenHouse Gases Tool (FLIGHT), and if so, which facilities' emissions they viewed.

In order to help to determine my intentions and assess fees, you should know that I am a professor at Southern Methodist University conducting non-for-profit academic research, and do not have affiliations with other organizations. These data will be used solely for my academic research, and will not be used for any commercial purposes. Analogous FOIA requests have been made by researchers in my field and fulfilled, though those have been for data from the US Securities and Exchange Commission.

Thank you for your consideration of this request and please contact me if there is any further information I can provide.

I request the briefing described in the following excerpt from Senate Report 116-123:

“Freedom of Information Act [FOIA].” The Committee is aware of concerns about the EPA’s Freedom of Information Act Regulations Update’s final rule, 84 Fed. Reg. 30028, promulgated on June 26, 2019. The Committee wants to ensure that such regulatory changes do not result in undue delays, redactions, and the withholding of information in contravention of the intent of the FOIA statute. To better understand the impact of the final rule on EPA’s compliance with the requirements of FOIA, the Committee expects EPA to provide a quarterly briefing to the House and Senate Appropriations Committees and the committees of Jurisdiction for each quarter that the rule remains in effect to provide information on the implementation of the rule and its impacts on FOIA responses. The briefings should include detail on the number of times that agency officials issue final determinations described in the rule and the specific statutory exemptions invoked in instances where an official issues a final determination outlined in the rule to withhold a record or a portion thereof.”

Please see page 79 of Senate Report 116-123 for more detail on this report (<https://www.congress.gov/116/crpt/srpt123/CRPT-116srpt123.pdf>).

I also note the joint explanatory statement of Division D of the Further Consolidated Appropriations Act, Public Law No: 116-94, that requires Senate Report 116-123 be complied with.

Please include the control number, send/receive date, sender/recipient and subject. Please redact constituents’ names I request the briefing described in the following excerpt from Senate Report 116-123: “Small Remote Incinerators.” The Committee believes the Agency’s efforts to regulate small remote incinerators [SRIs] will have negative impact on remote areas in Alaska where traditional waste disposal methods are unavailable. Because SRIs in Alaska are used to manage food waste, elimination of SRIs would result in the in-ability to dispose of food waste in a timely manner, resulting in a situation that creates an attraction to wildlife and increases the potential for potentially lethal human-wildlife contact. Additionally, many Alaska sites have no road connection to landfills so waste will often have to be flown via fixed and rotary wing aircraft to landfills as far away as 65 miles. In its original efforts to regulate SRIs, the Agency recognized these issues and exempted SRIs in Alaska. Following the Agency’s decision to reverse course because of a court decision, the Committee and stakeholders have attempted to work with the Agency for at least 4 years. Unfortunately, those efforts have not resulted in any relief for users of SRIs in Alaska. Therefore, the bill includes language delaying enforcement as the Committee, stakeholders, and the Agency work toward a solution. The Committee appreciates the work of the Agency and encourages all parties to find a solution by the end of fiscal year 2020. The Committee directs the Agency to brief the Committee on its progress on a quarterly basis.”	4/1/2020

Re: Freedom of Information Act Request

Dear Larry Gottesman:

This is a request under the Freedom of Information Act.

I request that a copy of the following documents be provided to me: a list of streams that are affected by the Corridor H project currently located in Kerens to Parsons, WV from 2018-2019.

In order to help to determine my status to assess fees, you should know that I am a college student who is studying Biology and Environmental Science at West Virginia Wesleyan College. I am requesting this information due to my interest in a future career in environmental inspection on water quality in the state of West Virginia.

Thank you for your consideration of this request.

Sincerely,

Hannah Daniels

My name is Haley Doll and I am a student at Southern Connecticut State University. I am currently looking for some information about the environment for a research project in my journalism class.

As the population grows and mass production increases, many aspects of our daily life are changing. I am working on finding data to answer the question, "Why going vegan can help the environment?" I am requesting data that includes the effects that mass animal production on the air. On the EPA website I was able to find the Overview of Greenhouse Gases.

I was hoping to see if you had data on how much of those greenhouse gases is produced by the making of animal-based foods including meat, fish and dairy.

If possible, I would need this information in an Excel spreadsheet. I am hoping to see how mass production of these animals for meat is accelerating climate change. I am a student requesting this information as part of an educational research project, which may be submitted for publication in a local or student news outlet or posted on a public website. As such, I request a fee waiver for the documents.

We request data on treatment processes and names of counties served for 93,143 PWS IDs (identified in the supplemental file) for all quarters from 1975 to 2019 (if the full quarterly data is unavailable, we request data from the most recently available quarter/year data available). Where available, we also request information that is typically available through the Facilities Report on SDWIS, including facility activity, facility deactivation date, water type description, PWS type, primary source, filtration status description, treatment objective, etc.</p> <p>For context, I am a PhD student researching drinking water. A previous member of our research group, Cindy Hu, reached out to Alex Poreteous, Michael Plastino, Gregory Carroll, and Andrew (Andy) Lindstrom in 2018 regarding gathering historical treatment technology information for PWS IDs that date further back than 2013 for what is currently available online from the SDWIS Reporting Services Site reports. In the e-mail exchange, Alex Poreteous suggested pursuing a FOIA request to gather this information. As a result, we are following up on that suggestion.</p>

To Whom It May Concern,

I am an Assistant Professor at the Norwegian School of Economics. Currently I am working on a project related to the government correspondence.

I am seeking a list of correspondences between the Environmental Protection Agency and members of Congress and their offices. Specifically, I would like to know what Congressional offices contacted the Environmental Protection Agency from 01.01.2001 to 12.31.2019. An entry in such a log generally includes:

- 1) The name of the member of Congress who contacted the Environmental Protection Agency
- 2) The date the Environmental Protection Agency was contacted
- 3) The subject of the inquiry. (i.e. What kind of information did the member request? Or what was the correspondence about?)
- 4) When (and if) the request was completed.

Subject: Re: Clarification details needed for EPA R2 2020 003740

Hi Wanda,
For time period, I am looking for records from the past 5 years.
For communications, I am only looking for formal communications at this time. I would expect them to have been sent hardcopy, but I would also expect the agency to have them in an electronic file somewhere.
If it is helpful to you, given current office inaccessibility, you may limit your search to "Notice of Violation" (a/k/a "NOV").
If it is helpful to you, you could also limit your search to include the word "Pratt".
If you still think such a search would take months, then please drop the "communications" bit, as we are most interested in WWTP's annual reporting.
Thank you for reaching out. Hope you & yours are healthy and safe!

Cheers,
Julia

			Hello!	
			I am looking for files/reports concerning sampling performed at a Gold Star Chili located at 4175 State Route 128, Cleves, Ohio 45002. I have a report dated May 14, 2008 which documents the results of sub-slab sampling performed at the site on April 14, 2008. I have attached a copy of this report for reference. Additional quarters of sampling were proposed in the report. I am trying to determine if additional sampling was performed, and if so, I would like to review the reports documenting the results of the additional sampling.

Team Environmental Consultants, Inc. (TEAM) is conducting a Phase I Environmental Site Assessment (ESA) of a commercial property located at 182 North Street in the City of Rye, Westchester County, New York. The property is currently owned by Vasile Property Inc. The site is occupied by Rye Auto Collision Works LLC. Review of a federal/state environmental database revealed that the the site was identified in the MANIFEST, RCRA-VSQG, FINDS, and SEMS-ARCHIVE (NFRAP) databases. The site was identified as Rye Auto Collision Works (US EPA Site ID No. 0202652).

TEAM requests USEPA records for the subject site concerning any EPA involvement, Technical Directive Documents, spill events, inspections, compliance issues, violations, tank installations/closures, site investigations, remedial activities, hazardous and solid waste, water quality information, subsurface disposal systems, drywell or floor drain closures, water supply wells, law enforcement, permits, etc.

We have unsuccessfully reviewed the US EPA's "MyProperty Environmental Database" and were unable to find any agency information associated with the property (several address variations tried). In addition to our request for information, we ask that the EPA's FOIA Public Liaison contact me at 518-668-3404 to assist us (TEAM) in finding EPA's information. Again, we know that EPA's information is available through the MYPROPERTY portal - but we can NOT find it and request help.

I look forward to hearing from the EPA's Liaison (518-668-3404). For the purpose of any document transmittal, please send any correspondence/documentation to me via e-mail (teamenvmike58@gmail.com) or mail (433 Diamond Point Road â€” Diamond Point, NY 12824).

Thank you for your help,

			Re: Freedom of Information Act Request	
			Dear Mr. Bunker:	
			This is a request under the Freedom of Information Act for data on model year 2014-2019 heavy-duty vehicles that are subject to the EPA and NHTSA regulatory program for reducing fuel use and greenhouse gas emissions from on-road commercial vehicles. Specifically, the ICCT is requesting the following data.	
			For each vehicle model certified using the Greenhouse gas Emission Model (GEM) methodology, we request the following data.	
			GEM input data	
			• Drive and steer tire rolling resistance coefficients (kg/t)	
			• Loaded tire size (rev/mi)	
			• Aerodynamic performance bin number	
			• Axle configuration (e.g., 6x2)	
			• Drive axle ratio and data	
			• Engine size (horsepower rating) (Phase 1 GEM only)	
			• Transmission type (Phase 1 GEM only)	
			• Cycle-averaged engine fuel consumption maps (Phase 2 GEM only)	
			• Additional GEM Phase 2 inputs: vehicle speed limiter (mph or N/A), weight reduction (lbs.), neutral idle (Y/N)

Pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. Section 552, I am requesting records related to EPA's consultation with industry related to the rulemaking titled Fees for the Administration of the Toxic Substances Control Act (Docket ID: EPA-HQ-OPPT-2016-0401). The Final Rule, 83 Fed. Reg. 52694 (Oct. 17, 2018), states that "[a]s required by TSCA 26(b)(4)(E), EPA consulted and met with stakeholders that were potentially subject to fees in August 2016, held an industry-specific consultation meeting and webinar in September 2016, and had several meetings with individual stakeholders through the development of the final rule..." I am specifically seeking records related to:

The initiation of consultation with industry on TSCA Fees in July and August 2016, including: (1) the EPA letter initiating consultation, which, based on comments in the docket, appears to have been sent on July 26, 2016 (e.g., EPA-HQ-OPPT-2016-0401-0013) and (2) the distribution list for that letter.

The August 2016 public session on TSCA Fees, which, based on comments in the docket, appears to have occurred on August 11, 2016 (e.g., EPA-HQ-OPPT-2016-0401-0010), including: (1) the invitation from EPA to the public session, (2) the distribution list for that invitation, (3) the public session participant list, and (4) all materials shared with participants (e.g., the presentation) related to the public session, and (5) the public session transcript.

The September 2016 industry-specific consultation meeting and webinar referenced in the Final Rule federal register notice, including, but not limited to: (1) the invitation from EPA to the meeting/webinar, (2) the distribution list for that invitation, (3) the meeting/webinar

Dear FOIA Officer:

This is a request filed under the Freedom of Information Act.

Date range of request: January 1, 2018 through January 1, 2020

Please search the records of the Environmental Protection Agency files for the following items, and provide me with electronic copies preferably, or hard copies if not in electronic form:

1. Reports filed in the last two years that discuss the eroding coastline in Louisiana.

I, Julia-Claire Evans, am a journalism student at Louisiana State University. The information I request is crucial to a story for publication in the news media, either with The Advocate or The Reveille. The disclosure of the documents to which I have explicitly referred is of public importance. Under these particular circumstances, I request a waiver of all fees. Please notify me if costs exceed \$25.

If I am denied, upon receiving my written request, please state in detail those records that are protected from disclosure. In addition, please outline the procedure for appealing such claims. I am available to answer any questions you may have concerning my request. In the interest of expediency, please communicate with me through e-mail. You will find additional contact information below.

Thank you for your consideration.

Sincerely,

We previously submitted the enclosed FOIA request dated January 17, 2020 to the Department of Justice's Office of Information Policy for specific items of information concerning its receipt and processing of FOIA requests contained in the agency's FOIA database system. In the attached February 12, 2020 FOIA response, OIP directed that our request for OIP's records should not be directed to them, but instead be directed to the Environmental Protection Agency (EPA), which administers the FOIAonline tracking system and contains the records we are seeking. We were told that EPA had previously furnished OIP with similar OIP FOIA records covering earlier time periods.

EPA-2020-003298	TRAC Office Administrator TRACFOIA	Transactional Records Access Clearinghouse/SU Environment and Energy Publishing	Accordingly, we are submitting this FOIA request asking that the EPA provide us with the records requested in the attached January 17, 2020 FOIA letter that we originally sent to OIP. Please let us know if you need any additional information, or if we can assist you in any way in processing this request. Thank you. The Jan. 29, 2020 memo from Associate Deputy Administrator Douglas Benevento titled "Request for Science Review and Advice from the EPA's Science Advisory Board for FY2020/2021." The following data elements are requested:

- 1) Name of LEPC & Chairperson name - if available
- 2) Email address for LEPC or Chairperson - if available
- 3) Mailing address for LEPC or Chairperson - if available
- 4) Phone number for LEPC or Chairperson - if available

Am flexible on how the data is organized or if it is part of a larger database if it can be provided in electronic format.

Background from EPA Report:

"In April 2008, the U.S. Environmental Protection Agency's (EPA) Office of Emergency Management (OEM) conducted a Nationwide Survey of Local Emergency Planning Committees (2008 LEPC Survey). EPA surveyed LEPCs in both 1994 and 1999 to gauge levels of LEPC compliance and activity, but there had been no subsequent systematic nationwide analysis of LEPC activity."

"In the months prior to launching the survey, EPA conducted a major outreach effort to update the contact information in its LEPC database. ****At the conclusion of this effort, the database contained e-mail addresses for 2,670 of the more than 3,000 known LEPCs."****

Please provide certified copies of all records related to ASBESTOS at the Quintana-Howell Joint Venture refinery on Up River Road in Corpus Christi, Texas. This site/facility has since been sold to Valero and is now operated as the Valero refinery.

2/24/2020

Historically, the Quintana-Howell Joint Venture refinery was associated with the street address 5450 Up River Road, Corpus Christi, Texas 78408 and the mailing address P.O. Box 4656, Corpus Christi, TX 78408.

The Valero refinery that currently owns/operates the site is associated with the street address 5038 Up River Rd, Corpus Christi, TX 78407.

We seek all records related to asbestos at this location, including asbestos abatement notifications, abatement permits, asbestos violations, asbestos inspections, records of asbestos contamination, or any other records of asbestos being present at this location.

EPA-HQ-2020-003214 Mr. William Clark Foley & Mansfield

This request is not limited to any specific time period. This is a commercial request. We are willing to pay up to \$300 in fees. Please inform me if fees will exceed \$300. We do not seek any confidential business information—only publicly available information. Thank you.

2/24/2020

Please provide certified copies of all records related to ASBESTOS at Klopman Mills in Hurt, VA or Altavista, VA. Klopman Mills is no longer in operation (it closed in 2007), but was located at 797 Main St., Hurt, VA 24517.

The Klopman Mills site may have also been associated with the address 1155 Main Street, Hurt, VA 24517.

The site has also been known as/owned by/operated by the following names/companies:

Hurt Partners, LLC;
Apparel Fabrics Properties, Inc.;
Burlington Industries; and
The Samet Corp.

The site may also have been referred to as "Southern Virginia Multimodal Park"

Klopman Mills was a textile manufacturing plant that opened in the 1940s but was sold in the 1950s to Burlington Industries. News reports indicated that The Samet Corp. of Greensboro, N.C., purchased all or part of the property that formerly housed the Klopman Mills plant around late 2015 or early 2016. News reports also indicate that Apparel Fabrics Properties, Inc., which owned the property, sold several parcels totaling about 604 acres to Hurt Partners LLC in Charlotte, North Carolina, on Dec. 21 2015. News reports also indicate that Hurt Partners LLC paid \$750,000 to Apparel Fabrics Properties in late 2016 for 604 acres of the site.

We seek all records related to asbestos at this location, including asbestos abatement notifications, abatement permits, asbestos violations, asbestos inspections, records of asbestos contamination, or any other records of asbestos being present at this location.

Please provide certified copies of all records related to ASBESTOS at the following locations:

- 1) Nems-Clarke facility, located at 919 Jesup-Blair Dr., Silver Spring, MD 20912;
- 2) Vitro Laboratories, located at 14000 Georgia Avenue, Silver Spring, MD 20906-2972.

The Nems-Clarke facility, as it existed in the 1960s, is no longer standing. The land the Nems-Clarke facility once occupied is now occupied by Montgomery College. The street address used by the Nems-Clarke facility was 919 Jesup-Blair Dr., Silver Spring, MD. It may also have been known as 919 Jessup Blair Drive in Silver Spring MD.

The Nems-Clarke site may be associated with a number of names, including: Nems-Clarke Co.; Nems-Clarke Inc.; National Electric Machine Shop (NEMS); Clarke Instruments; Vitro Corporation of America; Vitro Electronics; "Vitro Electronics, a Division of Vitro Corporation of America"; Penn Central Corp.; Defense Electronics, Inc.; Montgomery College.

The Vitro Laboratories site is also no longer standing in form that it took in the 1970s and 1980s. The land once occupied by Vitro Laboratories is now occupied by a Home Depot. Historically, street addresses associated with the Vitro Laboratories site were:

1400 Georgia Ave., Silver Spring, MD;
14000 Georgia Avenue, Silver Spring, MD 20906-2972;
Vitro Laboratories (division of Vitro Corporation of America) Dept. 227, 14000 Georgia Ave., Silver Spring, MD.

The address of the Home Depot that now sits on the land once occupied by Vitro Laboratories is 14000 Georgia Avenue, Aspen Hill, MD 20906.

Hello, I am looking for Demand Letters to municipalities that have entered into Consent Decrees with the EPA regarding sewer overflows and other waterway pollution prohibited by the Clean Water Act. For example, in April 2013, the City of Seattle, Washington entered into a CD (attached) and then subsequently received Demand Letters that demanded fines for sewer overflows and other violations of the CD (two of them also attached). I want to find any similar demand letters sent to the following cities or counties also under an EPA CD for CWA violations (according to https://cfpub.epa.gov/enforcement/cases/index.cfm): Indianapolis, Ind.; Evansville, Ind.; South Bend, Ind.; Toledo, Ohio; Akron, Ohio; Independence, Missouri; Nashville, Tenn.; Memphis, Tenn.; Chattanooga, Tenn.; Tyler, Texas; Mobile, Ala.; Jefferson County, Ala.; Fort Smith, Ark.; Atlanta, Georgia; Knoxville, Tenn.; Bangor, Maine; Miami, Fla.; San Francisco, Calif.; San Diego, Calif.; Jersey City, New Jersey; and Baltimore, Maryland.	2/20/2020

Langan Project No.170561404

Dear Sir or Madam:

Pursuant to the Federal Freedom of Information Act (5 U.S.C 552 et seq.) dealing with the examination and duplication of documents maintained by public agencies, Langan is requesting any information or copies of files regarding environmental conditions on the above property, such as environmental permits, notices of violations, spill/discharge incidents, storage or disposal of hazardous substances, Underground Storage Tanks (USTs), Leaking Underground Storage Tanks (LTANKs), asbestos abatement, and any other environmental reports that your department may have.

The site located at 74 Avenue X, Brooklyn, New York (Tax Block 7208, Lot 12). Site is bound by a NYC Housing Authority development to the north, a subway right of way to the east (N train), an athletic track and field to the south, and a school to the west.

Please contact me at 212-479-5712 with any questions or send your response to my attention at tgoodnough@langan.com or at the below address:

EPA-R1- 2020- 003122	Erin Thomas	This request seeks any records concerning EPA Region 1's and EPA Headquarters basis for not granting the September 30, 2019 and October 7, 2019 peer review requests (excluding any records submitted by the communities to EPA through the peer review requests).	
		<p>Modified on 2/28/20 - #003122: limit the request to only the specific analysis that EPA relied on for not granting the September 30, 2019 and October 7, 2019 peer review requests. We are not seeking email communications, only the backup electronic file records for the See attached PDF.</p> <p>Background</p> <p>This request is submitted by the Center for Regulatory Reasonableness for records related to the Draft Great Bay General Permit, published in the Federal Register on January 7, 2020. By way of background, the Great Bay General Permit concludes that a 100 kg TN/ha-yr watershed load limitation is required to ensure compliance with the New Hampshire narrative criteria for nutrients. This is a "new" regulatory mandate, not presently identified in the MS4 General Permit for New Hampshire, that imposes significantly greater TN load reduction requirements for all MS4 communities located in the Great Bay system. This recently announced watershed load reduction requirement will adversely affect New Hampshire MS4 communities by altering compliance responsibilities presently established within the New Hampshire MS4 General Permit.</p> <p>On September 30, 2019 and October 7, 2019, communities in Great Bay (i.e., City of Dover and City of Rochester) submitted letters to EPA Region 1 and the EPA Assistant Administrator for Water David Ross, requesting a peer review of EPA Region 1's method for deriving the water quality-based effluent limitations for wastewater treatment plant discharges in the Great Bay Watershed that was ultimately utilized in the Great Bay General Permit. EPA</p> <p>2</p> <p>Region 1 did not grant the two peer review requests of the Regions water quality-based effluent limitation derivation method on December 19, 2019 because EPA had yet to issue a draft permit and fact sheet at that time (attachment).</p> <p>Request</p> <p>This request seeks any records at EPA Headquarters concerning EPA's basis for not granting the September 30, 2019 and October 7, 2019 peer review requests (excluding any records submitted by the communities to EPA through the peer review requests).</p> <p>I am requesting records in the following categories:</p> <ol style="list-style-type: none"> 1. Any documents related to Robert M. Quintana, Quintana Farms, Phoenix Ranch, and/or Phoenix Ranch, LLC, including files and correspondence; 2. Any documents from or relating to Robert M. EPA-R3-2020-003117	Jennifer Clark	Clean Air Council	"Rubber Gaskets." The Committee is aware of concerns about the use of rubber gaskets that do not meet the National Sanitation Foundation and American National Standards Institute Standard 61 [NSF/ANSI 61] in potable water systems. The NSF/ANSI Standard 61 establishes health-related requirements for drinking water components like rubber gaskets and has been adopted by 47 States. EPA should work with States to ensure that funds provided to the State Revolving Fund [SRF] of a State are used for the purchase of rubber gaskets that are in compliance with the NSF/ANSI Standard 61 when a State has adopted the standard by regulation or statute. The Agency is directed to brief the Committee within 60 days of enactment of this Act on how the Agency can work with States to ensure projects funded by SRFs use safe and non-harmful rubber gaskets.	2/18/2020

Re: Freedom of Information Act Request

Dear National Freedom of Information Act Officer:

This is a request under the Freedom of Information Act.

I request that a copy of all documents containing the following information be provided to me: any form of communication (e.g., white papers, memorandums, emails) related to the National Defense Authorization Act for Fiscal Year 2020. Specifically, I would like to a copy of documents that detail justifications/reasonings to why the following three provisions were dropped from the final NDAA:

1. Restricting PFAS discharges from manufacturers into drinking water supplies under the Clean Water Act.
2. Requiring water utilities to reduce the amount of PFAS in tap water under the Safe Drinking Water Act.
3. Designating PFAS as "hazardous substances" under the federal Superfund law that requires cleanup of the most contaminated sites.

I request that you use the following key search phrases: "PFAS," "Clean Water Act," "Safe Drinking Water Act," "Superfund," and "contaminated site." I would like all related documents from any date leading up to when this request is being fulfilled.

In order to help to determine my status to assess fees, you should know that I am a graduate student of The George Washington University, Milken Institute of Public Health, and this request is made as part of a research project for educational use and not for commercial use. I request a waiver of all fees for this request. Disclosure of the requested information to me is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in my commercial interest.

EPA-HQ-2020-003095	Miss Dan K Dinh	1996	However, if you assess that fees are required to fulfill this request, I am willing to pay a maximum of \$5.00. If you estimate that the fees will exceed this limit, please inform me first.	2/18/2020

Taylor Research Group, LLC requests any records/documents related to the BCF Oil Site located at 360-362 Maspeth Ave. held by EPA Region 2 between the years 1966-2008 as well as inspection reports for the Brooklyn Union Gas Company.

In particular, we are requesting documentation related to two parallel pipelines that were installed in 1966 by the Long Island Pipeline Corporation (which later became Buckeye Partners, LP) on an easement on the BCF Oil Site that was granted by Chevron Oil Company. The pipelines were removed between 2006-2008, as noted in the following reports (see excerpts attached):

In "Suggestions Concerning Streamlining the Characterization Effort in Support of Reuse at the BCF Oil Site Brooklyn, New York" prepared by Tetra Tech Em Inc. for the U.S. Environmental Protection Agency Office of Superfund Remediation and Technology Innovation in May 2008, it was noted that "[t]he pipelines connected the aboveground storage tanks (AST) and underground storage tanks (UST) on the former Brooklyn Union Gas Company (currently Keyspan Energy Delivery) property to the north, and to a dock on the English Kills. Full Request is Uploaded Summary: This FOIA request is for the documentation of the all EPA searching email capabilities and limitations using the EPA software including but not limited to the EPA Office 365 which the EPA identified it has the G3 license with utilizes the Microsoft's Security and Compliance Center (SCC). The FOIA responsive records must include but not limited the documentation limitations the EPA identified in an email to the Requester on how much data the agency can download each day, the special Microsoft content search instructions that only can be conducted by manually input of each email when Microsoft G3 license allows searching over all email boxes without manually inputting email addresses, etc. Apparently, the US taxpayers are paying for the EPA Microsoft Office 365 G3 licenses and not being provided the services Microsoft states are included in the license the US Taxpayers are paying for. The Taxpayers should know as EPA says Microsoft is cheating the US taxpayers or the statements the EPA is providing this Requester are false. Facts: Now on 2/7/20, it was identified by the EPA that the EPA version of Microsoft 365 Government Cloud license G3 does not have certain features Microsoft provides to all other of Microsoft clients except the EPA. I request the operating plan and workforce and staffing plans described in the following excerpt from the joint explanatory statement of Division D of the Further Consolidated Appropriations Act, Public Law No: 116-94:

“Operating Plan - Within 30 days of enactment or February 10, 2020, whichever is later, the Agency is directed to submit to the House and Senate Committees on Appropriations its annual operating plan for fiscal year 2020. The operating plan shall adhere to the program area levels, and where applicable, program project levels, specified within this explanatory statement. For program project levels not otherwise specified herein, the operating plan should detail how the Agency plans to allocate funds at the program project level.

Workforce and Staffing Plans -The Committees expect the Agency to submit, as part of its operating plan, FTE targets by National Program Management area, with separate FTE targets for headquarters and each regional office within each Program, in line with the Agency's enacted fiscal year 2020 appropriation. The Agency is directed to brief the Committees quarterly on ongoing Agency actions to meet these FTE goals. The Agency should also develop workforce and staffing plans to achieve these FTE targets.”

I request all records concerning communications from or to Andrew Wheeler, Mike Molina, Doug Benevento, Meghan Garvey, or Ryan Jackson that include the key words "Michael Stoker," "Mike Stoker," or "Stoker" between Jan. 27, 2020, and the most current date possible.

Please include any phone calls, call logs, call sheets, Skype calls or videos, emails, letters, hand-written notes, day calendars, memorandums, meeting agenda sheets, text messages, voice and video recordings and other documented forms of communication. If possible, I would prefer to receive the largest number of records or documents in electronic form.

This request is made as part of news-gathering activity and is not for commercial use. FOIA requires that if part of a record is exempt from disclosure, you must redact and release all segregated parts. Please describe the deleted material in detail and specify the reasons for believing that the alleged statutory justification applies in this instance.

If my request is denied in whole or in part, please specify which exemptions are claimed for each passage or whole document denied. In addition, please give the number of pages in each document and the total number of pages pertaining to this request and the dates of the documents withheld. Such statements will be helpful in deciding whether to appeal an adverse determination.

I look forward to hearing from your office within 20 days in response to this request. If you have any questions about the nature or scope of this request, please call me at 202-297-7249 or email me at stephenlee@bloombergenvironment.com. Thank you for your consideration of this request.

EPA-R4-2020-003241	Mr. Bennie G. Thompson	Member, House of Representatives	<p>This letter is a request for records in accordance with the Freedom of Information Act (5 U.S.C. Â§552). This letter is pursuant to a constituent request that my office facilitate information relative to the Yazoo Backwater Pumps project (the "Yazoo Pumps"). As Congressman for the second congressional district of Mississippi, I am writing to you to draw your attention to the critical flooding and infrastructure issues that are impacting my district in Mississippi as well as throughout the state. These issues of flooding have persisted over the years and has worsened as evidenced by the aftermath of a severe tornado storm that left approximately 500,000 acres of the Mississippi Delta under water just last year. The Environmental Protection Agency (EPA) issued a Clean Water Act 404(c) Final Determination prohibiting construction of the Yazoo Pumps on August 31, 2008. However, during an April 3, 2019 hearing before the Senate Appropriations Subcommittee on Energy and Water Development, EPA Administrator Wheeler confirmed that EPA was reconsidering that 2008 Final Determination. As used in this request, the term "Documents" means all records or written or printed materials, including letters, memoranda, analyses, studies, reports, meeting summaries, agendas, photographs, and any other relevant documentation, whether in draft or final form, or in the form of e-mail messages, documentation of telephone conversations, handwritten notes, and other mediums of communication. EPA-R3-2020-002647	David B Graham	Kaufman & Canoles, P.C.	On July 8, 2019, EPA responded to a FOIA filed by Patrick Genzler on behalf of a number of parties that had received GNLs at the Peck Iron & Metal Site. The purpose of this correspondence is to request EPA to supplement the July 8, 2019 FOIA response with material related to the Site that the agency must have overlooked in its files.	
			The voluminous response that we received last July consisted of over 8,000 documents. It did not include, however, responses to Section 104(e) letters from dozens of parties that received the letter (see attached chart).	
EPA-R1-2020-002657	Erin Thomas		Given the penalties associated with not responding to EPA Section 104(e) letters, it is difficult to imagine that so many parties ignored 104(e) letters regarding this Site. I would assume that the more likely scenario is that these responses were inadvertently omitted when the FOIA response was prepared. Please ask your records department to review this list of parties and provide copies of any responses to the Section 104(e) letters regarding this Site. See attached PDF. Background: EPA has indicated in various meetings and correspondence that the Great Bay Estuary is impaired by nitrogen and those nitrogen levels are precluding the restoration of eelgrass beds to historical levels. EPA has also stated that the maximum TN load to the system cannot exceed 100 kg-TN/ha-year as such loading precludes eelgrass presence in estuarine embayment. I request the briefing described in the following excerpt from Senate Report 116-123:

"Interagency Coordination on Flood Reduction. â€” The Committee is concerned by the consequences of frequent and severe flooding within Federal flood control project areas. A major disaster declaration under the Stafford Act was issued for the lower Mississippi River Valley on April 23, 2019, due to months of severe flooding that caused significant damage to infrastructure and the environment. In 2008, the Environmental Protection Agency disapproved of the Corpsâ€™ recommended plan for remaining unconstructed features after the Corps had completed a complex system of improvements in the area as authorized by Congress. As flooding remains a significant problem in the lower Mississippi River Valley, the Committee understands that EPA is working with the Corps to explore alternatives to provide a balanced approach to the flood dam-age reduction and environmental needs of the affected area. EPA shall brief the Committee within 30 days of the enactment of this Act on this matter."

I understand that there were approximately 750 uncovered finished water reservoirs when the Long Term 2 Enhanced Surface Water Treatment Rule was enacted. The Rule requires that all such reservoirs must either be covered or treatment applied beyond chlorination to ensure adequate disinfection. Please provide the following information related to the enforcement of said Rule:

1. How many reservoirs have completed or have executed a Memorandum of Understanding to comply with the Rule by:
 - a. Covering the surface of the reservoir?
 - b. Placing the treated water in enclosed tanks?
 - c. Re-treatment in order to achieve the required standards?
 - d. Other?

Team Environmental Consultants, Inc. (TEAM) is conducting a Phase I Environmental Site Assessment (ESA) of the subject 45 & 55 LaFayette Avenue located in White Plains (Town of North Castle), Westchester County, New York. The 45 LaFayette Avenue parcel which is a paved parking area, is owned by Invest Co. (Investco). The 55 LaFayette Avenue lot, which contains the former Benfield Control Systems building, is owned by Southway Investco LLC. Former site occupants reportedly have included Benfield Control Systems, Benfield Electric Supply, Midland Processing, Main Tool Supply, and R.B.M. Iron Works. TEAM was informed that the site was granted NFRAP status from the EPA in 1990. We are in possession of a Technical Directive Document Nos. 02-9008-55/Contract No. 68-017346 (December 31, 1990 Final Draft Site Inspection Report). Said paperwork originated out of EPA's Edison, New Jersey office location.

We reviewed the USEPA's "MyProperty Environmental Database" and was unable to find any agency information associated with either the 45 or 55 LaFayette Avenue parcel (address variations tried).

TEAM requests USEPA records for the subject site concerning any EPA involvement, spill events, inspections, compliance issues, violations, tank installations/closures, site investigations, remedial activities, hazardous and solid waste, water quality information, subsurface disposal systems, drywell or floor drain closures, water supply wells, law enforcement, permits, etc.

As our Client is under a tight time-frame, any effort to expedite this FOIL request would be greatly appreciated! Thank you!

The facility is referenced by multiple addresses/locations including 3485 Pacheco Blvd, Marina Vista Ave, 1801 Marina Vista, and Marina Vista Blvd. Stantec previously submitted a FOIA request (EPA-R9-2020-000604/EPA-HQ-2020-000604) and briefly reviewed available information via the website link: <http://www.epa.gov/myproperty/>

However, we're specifically looking for the following records. Can you please provide these electronically?

We have an electronic copy of: RCRA Facility Assessment, Shell Oil Company, Martinez Manufacturing Complex, February 1988. Submitted by AT Kearney Inc. and Science Application International Corporation, and Submitted to: EPA Region 9. EPA Region 9 ID Number CAD009164021. However, we are missing 23 through 35 of this document and would like to obtain those missing pages.

We have found reference to another document prepared by an EPA contractor titled Technical Review of Documents: Current Conditions (for Shell Oil Company, dated May 23, 1991. We would like to obtain a copy of this document.

We would like to obtain a copy of a document Shell submitted to the USEPA titled Report of Current Conditions, dated June 30, 1989.

We would like to obtain a copy of the May 8, 1990 USEPA RCRA Hazardous Waste Permit effective June 30, 1990 and expired on June 30, 1995.

This is a request under the Freedom of Information Act, 5 U.S.C. § 552. I hereby request the following records:

All communications to/from Scott Pruitt regarding the 'Seven Hills Mine', "Seven Hills mine" "7 Hills" or "7H" in Indiana from September 1, 2017 - December 31, 2019.

All communication to/from Greg Sheehan, former deputy director of FWS, regarding the 'Seven Hills Mine', "Seven Hills mine" "7 Hills" or "7H" in Indiana from September 1, 2017 - December 31, 2019.

All communications to/from Todd Willens regarding the 'Seven Hills Mine', "Seven Hills mine" "7 Hills" or "7H" in Indiana from September 1, 2017 - December 31, 2019.

All communication to/from Scott Mason regarding the 'Seven Hills Mine', "Seven Hills mine" "7 Hills" or "7H" in Indiana from September 1, 2017 - December 31, 2019.

I am requesting these documents as a full-time member of the news media. As a representative of the news media this request is made as part of news gathering, the documents will be made available to the general public, and are not for a commercial use.

In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not.

I request a waiver of all fees for this request. Disclosure of the requested information to me is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in my commercial interest. Specifically, the documents will contribute to public understanding the environmental effects of coal mining and the pursuant laws in effect to regulate it.

Thank you in advance for your anticipated cooperation in this matter.

A copy of all studies, permits and/or approvals issued since 2014 by the EPA/DEP affecting the Hackensack River and/or Overpeck Creek authorized as a result of application (s) for development of Block 451.05 in North Bergen, Hudson County, NJ and Block 155 Lots 1.03, 1.04, and 6 in Secaucus Hudson County, NJ .

The proposed North Bergen Project, a 325,000 sq. ft. fulfillment center proposes to raise the site approx. four (4) and a half feet, possibly adversely impacting the surrounding wetlands drainage capability. We would like to see the calculations and studies done in regard to assuring adequate capacity of the current adjacent drainage areas and our access road on Paterson Plank Road which is currently at a much lower grade than proposed.

We are most concerned, as the adjacent property owners, with the proposed 20 acre increase in site elevation from the current approximately three (3) and a half to seven (7) feet or more. In addition to the fact that the 20 acres are abutting Route 3, Paterson Plank Road and NJ Turnpike 16E, which are all at the lower levels and utilizing the same drainage sources.

			<p>I am requesting correspondence as detailed in the attached request. Mike Soraghan and E&E News appeal the denial of records listed in the denial log (attached) for FOIA EPA-R6-2019-009084. The exemptions listed have been applied in an overly broad manner to withhold documents.</p> <p>The main exemption that has been used in this case to justify denial of records is Exemption 5, specifically attorney-client privilege.</p> <p>But Exemption 5 does not justify withholding documents where the agency's decision-making process is itself at issue.</p> <p>This is a request for documents about a case against a refinery that was closed out without any apparent documentation or notation in the public record. The reason these documents have been sought is to ascertain why the matter was closed.</p> <p>According to EPA documents and spokespersons, the case was closed less than two months after a lobbyist contacted the EPA Chief of Staff about this specific case.</p> <p>The documents might show whether or not the reported dismissal had anything to do with that contact.</p> <p>Viewed in light of Mr. and Mrs. <i>Estelle</i> Bd. of Ed. of Syosset Cent. Sch. Dist., 35 F. Supp. 2d 224, 230 (E.D. N.Y. 1998); <i>Burka v. N.Y.C. Transit Authority</i>, 110 F.R.D. 660, 667 (S.D. N.Y. 1986), the records should be released.</p> <p>Additionally, to qualify for the attorney-client privilege exemption, the agency must demonstrate that the material it withheld both involves confidential communications between an attorney and client and relates to a legal matter for which the client has sought professional advice. <i>Judicial Watch, Inc. v. U.S. Postal Serv.</i>, 297 F.Supp.2d 252, 267 (D.D.C. 2004) (quoting <i>Mead Data Cent., Inc. v. U.S. Dep't of Air Force</i>, 566 F.2d 242, 252 (D.C. Re: The Pohatcong Valley Groundwater Contamination Superfund Site

EPA Site ID # NJD981179047

☐

Dear Freedom of Information Officer:

This firm represents TerraTherm, Inc. (a TerraTherm company) and is requesting all documents relating to Operable Unit 3 (OU-3) at the Pohatcong Valley Groundwater contamination Superfund Site (Pohatcong Site) located in parts of Washington Township, Franklin Township and Greenwich Township in Warren County, New Jersey. The street address for the Site is Route 643 to Route 31, Warren County, New Jersey. The Pohatcong Site primarily involves trichloroethylene (TCE) and perchloroethylene (PCE) contamination of the Kittatinny Limestone Aquifer underlying the Pohatcong Valley. The term "records" is intended to include all documents and records of any kind, including electronic records and handwritten notes, within the control or possession of the EPA or its officials or contractors.

Pursuant to the Freedom of Information Act, 5 U.S.C. § 522, TerraTherm is requesting all documents dated January 1, 2018 or later involving or relating to the design and remediation treatment plan for OU-3 at the Pohatcong Site, including the plans, designs, contracts for thermal remediation treatment to address the soil contamination. TerraTherm is requesting all information relating to the design and remediation treatment plan documents for OU-3 at the Site, including all contracts, purchase orders, review studies and any correspondence relating to designation of TRS Group as the thermal remediation contractor for the thermal remediation.

Dear Public Records Officer at the Environmental Protection Agency,

This is a request under the Freedom of Information Act.

I request that a copy of the following records: The details of the test results, submitted evidence, proposed response plans and correspondence between the EPA (or EPA representatives) and the school (or school representatives), including expanded documentation of the hazard reports and investigations for the schools listed in the EPA provided summary to Senator Markey's Office in 2016, noting 286 potential PCB hazards in 20 states. The data attached to Senator Markey's report is attached for reference. Senator Markey's report is also attached for reference. I also request this information for any new cases that the EPA---either headquarters or any of the regional offices--- has become aware of since data was prevented to Senator Markey, including all new cases from 2016 to December 2019.

In order to help to determine my status to assess fees, you should know that I am a representative of the news media affiliated with NBC News, and this request is made as part of news gathering and not for a commercial use. I request a waiver of all fees for this request. Disclosure of the requested information to me is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in my commercial interest.

I can accept records with personal identifying information redacted in cases where such redaction is necessary to comply with Freedom of Information Act protections.

Thank you for your consideration of this request.

Sincerely,
Kit Ramgopal

This request concerns the use of animals in research, teaching, etc. at EPA. It applies to every IACUC within EPA.

At the very least, there appear to be IACUCs for the Andrew W. Breidenbach Environmental Research Center (Cincinnati OH) and the Office of Research and Development (Research Triangle Park NC). There may be others.

It seems possible that the Office of Research & Development has one IACUC over all of its components, although there could be separate IACUCs for each component, such as the National Exposure Research Laboratory and the National Health and Environmental Effects Research Laboratory.

Regardless of the exact organization, we request the following documents for EACH IACUC at EPA:

1a) According to The Guide for the Care and Use of Laboratory Animals (The Guide), 8th edition, all entities must have a system in place for anyone (insiders or members of the public) to report concerns regarding animal welfare at a facility. These reports are either made directly to the IACUC Chair or a designated representative, or they eventually are routed to the IACUC Chair/representative. We request all such reported concerns received by the Chair.

1b) Further, for all such reported concerns deemed supported, we request the notification sent to the Institutional Official.

2a) Per The Guide, all entities must have a system in place for investigators to notify the IACUC and/or attending veterinarian of adverse events, unexpected or unanticipated outcomes, violations of protocols, incidents involving animal welfare, etc. that occur during their studies/experiments. We request all such notifications received by the IACUC or AV.

2b) Further, we request all notifications sent to the Institutional Official regarding these reported incidents.

I am seeking documentation regarding the accidental release of a nuclear bomb over the Salton Sea in the early 1950's. I have attached documents which state that the bomb was a Mark-6 type plutonium bomb which was accidentally released by the Strategic Air Command. That aircraft was conducting aero-ballistic tests on behalf of Sandia Labs, and most likely took off from Kirkland Air Force Base. Additional to any reported environmental problems of a hazardous or toxic nature that may have occurred at the property referenced below:

Our request includes, but is not limited to, information pertaining to the National Priority List (NPL), Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS), Hazardous Waste Data Management System (HWDMS), and any reported problems in water, air and hazardous spills.

This request does not include information regarding storage tanks or PCBs.

Dear FOIA Officer:

On behalf of the Center for Public Integrity and myself, jointly, I request that you provide us copies of the records identified and described below or of records containing the information identified and described below:

All emails and memos including the word "asbestos" sent to or from Andrew Wheeler between April 1, 2018 and the date you conduct the search for responsive records

Format: we prefer to receive records in the following formats, listed in order of preference:

- (1) spreadsheet format such as an Excel file, tab-delimited file or similar;
- (2) word processing file, text-based PDF, or similar;
- (3) other non-proprietary electronic format;
- (4) paper copies.

Please also provide any and all documentation related to such electronic records, including but not limited to data dictionaries, database documentation, record layouts, code sheets, data entry instructions, and similar printed or electronic documentation materials.

We specifically request all portions of any record responsive to the description above. If you withhold any record or any portion of a record as exempt, we specifically request the release of all segregable non-exempt portions, including but not limited to email header information (e.g., sender, recipients, date, subject) and analogous information in non-email documents.

If you withhold any record or portion of a record, please specify which statutory exemptions are claimed for each withholding. Please separately state how disclosure would harm an interest protected by the cited exemption. Please describe each record withheld, including its date and size (e.g., amount of electronic memory or number of paper pages).

White and Williams LLP

Dear Records Agent:

This is a request pursuant to the Freedom of Information Act, 5 U.S.C. Â§ 552.

I request a copy of any and all records regarding or related to asbestos, asbestos-containing materials, and asbestos-containing products that are or were present at the facility owned or used by Hollingsworth & Vose and/or H&V Specialties on or around 219 Townsend Road Groton, MA 01450 from 1951 to present. I also request any and all records regarding any asbestos abatement(s) that may have occurred at this location.

I recognize that you may charge reasonable costs for copies, as well as for personnel time needed to comply with this request. If you expect costs to exceed \$500.00, please provide a detailed fee estimate. As you know, the Public Records Request Law requires a written response within 20 business days. If you cannot comply with my requests, please provide an explanation in writing, as required by statute.

Please do not hesitate to contact me should you have any questions or require any more information.

Thank you for your consideration of this request. A copy of the same was mailed to the physical address of the Massachusetts branch of the EPA.

Very truly yours,

WHITE AND WILLIAMS LLP

Environmental Protection Agency, Office of the Inspector General

To whom it concerns,

This is a multi-part request under the Freedom of Information Act. If the above-named agency would like to separate the following into individual requests, I understand. But in the interest of time and through my experience with previous, similar requests that have been combined into a single request by federal agencies, I chose to combine my requests for the following responsive records as follows. For all portions of this request, the time period for which I am seeking records is January 1, 2019 to present.

Part I

Please provide a log of all FOIA requests to the above-named agency, to include date of request, full name of requester, a brief description of the request and disposition of the request.

Part II

I request a copy of the top agency official or Secretary's daily calendar for the above-named agency, preferably in PDF form with optical character recognition having been performed.

Part III

I request copies of all visitor logs for the above-named agency, preferably in PDF form with optical character recognition having been performed. Please include the point of contact, requester of permission for visitation, or person who submitted clearance for individual visitors on the logs.

Part IV

I request a log of any all communications, to include but not be limited to official correspondence on congressional letterhead as well as emails sent from the members of the 115th and 116th Congress or their staffs, between the above-named agency and all members of Congress and their staffs in the time period covered. Please note, I am not seeking a copy of every communication. Rather, I am seeking a on page 8 of the attached order the court makes reference in the first full paragraph to seeking permits or approvals to comply with the order. Please supply the form in which the arguments and assertions were made (written or verbal) and supply the text if written and the context if verbal. Please also supply any appropriate citations to laws or regulations requiring seeking permits or approvals.

I am looking for information pertaining to a closed landfill on State Route 7 in Marietta, Ohio which is owned by either Union Carbide or Gulf Oil Chemicals. The landfill has contaminated the area and I wish to review documents that show the extent of the current contamination both on the landfill property and on the surrounding properties. I also wish to review the history of the clean up effort. The only

information I currently possess in relation to the landfill is that one part (Site A) was closed in 1973 and another part (Site B) was closed in 12/6/2019. We are currently working on a property in Jersey City, Hudson County, NJ and have found that there was a previous case associated with the property. RFE Industries plead guilty to discharging chemical wastes and metals via a pipe into the Hudson River. We are hoping to obtain

On December 6th, 2019, President Trump told reporters that "we're looking very strongly at sinks and showers and other elements of bathrooms ... People are flushing toilets 10 times, 15 times, as opposed to once. They end up using more water. So, EPA is looking at that very strongly, at my suggestion."

Dear Sir or Madam,
Good day for you!

This is Emily Tian from REACH24H Consulting Group. Recently we plan to apply for a pesticide registration to EPA. Our product is similar to PROTEKU GRAPE GUARD (EPA registration number 74787-1), which contains 98.5% Sodium metabisulfite (111409).

Could you please send the data matrix documents for that registration to me? so that we could figure out which data we could cite.

Thank you very much and looking forward for your feedback.

EPA-R5-2020-001287	Bonnie Nordstrom		Pursuant to the Freedom of Information Act, I hereby request the following records: a copy of the list or printout or database listing of Inspector General investigations closed/reports completed during calendar year 2014. If the list is organized by FY rather than calendar year, the FY 2014 list is sufficient for this request. If no central list or database exists, then I request copies of the cover sheet or first page of each IG report completed during calendar year 2014. The requested documents will be made available to the general public, and this request is not being made for commercial purposes. In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not. Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires. We also ask that you provide an estimated date by which the agency will complete action on the request.</p>	11/21/2019

Pursuant to the Freedom of Information Act, I hereby request the following records:

Electronic copies in native digital format of any email correspondence, including those public record emails sent or received on a personal communication device or through a personal or private email address, exchanged between EPA Assistant Administrator David Ross, and any of the following external email addresses or domain names (listed below), from January 21, 2018 to the day this request is processed.

@nutrientpolicy.org
@fb.org
@nppc.org
@tfi.org
kcmillan@tfi.org
cmica@tfi.org

Please include any emails sent from Mr. Ross or sent to Mr. Ross. Please also include copies of emails in which Mr. Ross was simply "cc-ed" or "bcc-ed." Please include any attachments that were a part of these files, such as Word documents, or PDFs or other types of attachments.

Because the above searches involve one individual within the agency over a defined period of time, and a narrow set of outside parties, these should hopefully constitute simple electronic searches. If you have any questions about this request, please contact me immediately, as I'm happy to discuss perhaps revising the request to make it easier and faster for you to respond to it.

Given how narrowly the above requests are crafted, I hope it is something you can respond to by December 20. If your review is not complete by then, I would ask that you provide whatever material you have compiled by this date, and then send a more complete response once you have finished your review of the requested materials.

To Whom It May Concern:

Pursuant to the Freedom of Information Act, I hereby request the following records:

Electronic copies of any email correspondence received by, or sent from, EPA Assistant Administrator David Ross from January 1, 2018 to March 1, 2018 that contains the keywords "fertilizer, algae, algal, bloom" or "nitrogen."

Please include copies of emails in which Mr. Ross is simply "ed" or "cc-ed." Please include any attachments that were a part of these files, such as Word documents, or PDFs or other types of attachments. Because the above search only involves one official, a one month period of time, and one keyword, this should constitute a simple electronic search. If you have any questions about this request, please contact me immediately, as I am more than willing to discuss perhaps revising the request to make it easier and faster for you to respond to it.

Given how narrowly the above request is crafted, I hope it is something you can respond to by December 20. If your review is not complete by then, I ask that you provide whatever material you have compiled by this date, and then send a more complete response once you have finished your review of the requested materials.

Thank you in advance for your assistance. I do realize that responding to a request like this requires staff time and I appreciate you taking this time to address my request. I look forward to receiving your initial response to this request as soon as possible and within 20 business days.

Sincerely,

To Whom It May Concern:

Pursuant to the Freedom of Information Act, I hereby request the following records:

Any telephone records and writings, including emails, transcripts, notes and memos from January 1, 2018 to March 1, 2018 documenting a telephone call between David Ross, assistant administrator for the Environmental Protection Agency's Office of Water, and the Agricultural Nutrient Policy Council that occurred on February 7, 2018.

Because the above searches involve one individual within the agency over a defined period of time, and a narrow set of outside parties, these should hopefully constitute simple electronic searches. If you have any questions about this request, please contact me immediately, as I'm happy to discuss perhaps revising the request to make it easier and faster for you to respond to it.

Given how narrowly the above request is crafted, I hope it is something you can respond to by December 20. Hello,

I am completing an environmental assessment of a property in Vernon, CA. The Site is Joe's Plastics, currently listed under EPA Identification #: CAD983624230. While I have been able to grab documents from Envirostor in CA (DTSC docs/EPA letters), these are from 2016 onward. The 2016 documents reference materials/prior reports from before this time for the Subject Property. Could you please help me identify/provide these prior documents for the Site?

The property is listed under this address: 5725 District Boulevard, Vernon, CA 90058. The Site has also been identified on several databases under the following addresses:

1. 5717 District Blvd, Vernon, CA
2. 5719 District Blvd, Vernon, CA

Good morning,

On behalf of Verizon Wireless, Trileaf Corporation is conducting a Phase I Environmental Site Assessment on a portion of a property located in Pensacola, FL. During my research, Iâ€™ve discovered some nearby sites of concern, which I would like to request records for, located at:

Pensacola Naval Air Station
Naval Air Station Building 3, Pensacola, Florida 32508
(Lat, Long : 30.357222° N, 87.283054° W)
Site ID : 401221
EPA ID : FL9170024567
Section 1, Township 3 S, Range 30 W

To complete this process, we must conduct a brief records review with a local government representative in regards to any previous environmental conditions (petroleum spills, hazardous waste, etc.) or emergency responses to the property. Specific records we are looking for include, but are not limited to, the following:

- Emergency responses related to hazardous waste cleanup (non-medical emergencies)
- closure reports and soil or groundwater sampling reports
- Inspection reports
- Reports of groundwater and/or soil contamination
- Complaints from the public
- Storage tank closure reports and/or site assessments

This is a request under the Freedom of Information Act. I am a reporter with The Center for Investigative Reporting (henceforth "CIR") seeking information regarding administrative subpoenas issued by the Environmental Protection Agency Office of Inspector General.

More specifically, I hereby request the following records:

Electronic copies of all administrative subpoenas issued by the Environmental Protection Agency Office of Inspector General from January 1, 2017, to the date at which this request is processed.

I understand that some information may be exempt from disclosure, but I would like these records even if some redactions are necessary.

I would like the agency to produce these on a rolling basis as they become available for release, understanding that some of the information may be available before the entirety of the request.

Electronic Records:

Please furnish all responsive records in electronic, searchable format delivered to my email address stan.alcorn@gmail.com

Further Correspondence:

All correspondence regarding this request can be directed to me at stan.alcorn@gmail.com

Please be aware that under 5 U.S.C. Â§ 552(a)(6)(A), a FOIA request is considered constructively denied after twenty business days and is subject to litigation on that basis. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. As the law requires, I will also expect you to release all segregable portions of otherwise exempt exempt material.

Good morning,

On behalf of Home Savings Bank, Trileaf Corporation is conducting a Phase I Environmental Site Assessment on a property located in Tampa, FL. During my research, I've discovered a nearby site of concern, which I would like to request records for, located at:

Kempton Cleaners / Tampa Motorcycle / Roverland Parts / Kempton Brothers Porsche Parts
14525 N Florida Ave., Tampa, Florida 33613
(Lat, Long : 28°04'44.8314999°N, 82°27'31.6970999°W)
Facility ID : 123931
EPA ID : FLR000054353

To complete this process, we must conduct a brief records review with a local government representative in regards to any previous environmental conditions (petroleum spills, hazardous waste, etc.) or emergency responses to the property. Specific records we are looking for include, but are not limited to, the following:

• Emergency responses related to hazardous waste cleanup (non-medical emergencies) • closure reports and soil or groundwater sampling reports
• Inspection reports
• Reports of groundwater and/or soil contamination
• Complaints from the public
• Storage tank closure reports and/or site assessments

ATTN: EPA Region 10

Hello:

Under the Freedom of Information Act, I request copies of:

Records pertaining to funding summits convened by the EPA regarding water systems in Warm Springs, Oregon, including minutes, any audio/video recordings, agendas, invitation list, subcommittee assignments and subcommittee minutes / agendas, since June 1, 2019.

All communications pertaining to SDWA and/or CWA orders for water systems in Warm Springs, Oregon, including emails, memos, and phone / text records, since June 5, 2019.

All communications with email addresses ending in @wstribes.org, since June 1, 2019.

I request these records in an electronic format. I prefer to receive the materials in a rolling fashion, as they become available.

I prefer to receive the materials in a delimited text format. Furthermore, please provide all the documentation, including any record layouts, code sheets or schema needed in order to analyze the information.

If significant delays are expected in responding to or in fulfilling this request, please contact me at 972-345-4714, ecureton@opb.org with information about when I might expect copies or the ability to inspect the requested records. If the wording of this request proves overly broad or cumbersome for your staff, please let me know how I might narrow it to be mindful of your time and still obtain information that furthers public understanding of water systems in Warm Springs. If you deny any or all of this request, please cite each specific exemption you feel justifies the refusal to release the information and notify me of the appeal procedures available to me under the law.

Site:1299 West 5th Street, Eureka, St. Louis County Missouri

On January 18, 2005 the site received a 113(D) Administrative Civil Complaint as a result of noncompliance and were fined \$6500.

I would like to request the inspection file and correspondence about the noncompliance that resulted in the \$6500 fine and if the occupant at the time paid the fine. Please see the attached for additional information I was able to find online about the fine.

The property was adjacent to a petrochemical refinery and during this period there were issues regarding air pollution that contained benzene and numerous other chemicals associated with the petrochemical industry. The school was closed multiple times during normal calendar sessions due to unexplained child illness. The property was eventually purchased by Ashland Oil, Inc, now doing business as Marathon Petroleum. Many former residents of the local geographic area have died of cancer, especially unusual ones such as reproductive cancers that are quite rare. Many children have experienced neurodevelopmental issues and have passed those on to their children through genetics. I was a former student there and I have requested information previously only to be told by the EPA that records regarding this facility cannot be located. There were air monitors set up during child attendance at the school and after it became an administrative office for petroleum employees. 000845 Mr. Emerson J.
Addison individual

I am writing on behalf of the Democratic National Committee to request the following records in the possession of the U.S. Environmental Protection Agency:

Any record, including but not limited to expense reports, reimbursement records, vouchers, invoices, expenditure records, receipts, and credit card or travel charge card statements, that include a listing of all expenses incurred by, or on behalf of, Administrator Andrew Wheeler, or any expenditures where Administrator Andrew Wheeler was listed as a recipient or beneficiary of the expenditure.

Any record, including but not limited to expense reports, reimbursement records, vouchers, invoices, expenditure records, receipts, and credit card or travel charge card statements, that include a listing of all expenses incurred by, or on behalf of, any individual who served as Chief of Staff of the U.S. Environmental Protection Agency or any expenditures where the Chief of Staff was listed as a recipient or beneficiary of the expenditure.

This request covers April 1, 2019 to October 1, 2019.

The Democratic National Committee is not a commercial requester. We understand that there might be costs associated with this request. We would request a waiver of fees and ask for you to contact us by e-mail at researchinfo@dnc.org before incurring charges if this request will be in excess of \$50.

 Subject: FOIA Request for McKin and Elizabeth Mine

Tim:

This concerns your FOIA request related to the McKin and Elizabeth Mine Superfund Sites (EPA-R1-2020-000626).

This is to confirm that you are now requesting the final Technical Impracticability Report and the final Technical Impracticability Waiver for the McKin Site. You are not requesting drafts of either document or any other records.

You also stated that you have the information that you need for the Elizabeth Mine Site.

We will review the Site records for McKin and get back to you as soon as we can.

Please send me any electronic, technical, releasable documents for the following Superfund site located in Whiteside County, Illinois:

EPA ID# ILN000509178 â€“ Reliant Fastener Site, 201 East 2nd St., Rock Falls, IL.

Please indicate where possible the specific location of this site, types of hazardous materials involved, and any assessment and remediation which took place. I only need releasable documents that are in your Superfund Enterprise Management System (SEMS) and I only need records from the Superfund Division. No well logs are needed and we do not need documents from your off-site record center. I will accept redacted documents as responsive.

This information will be used to complete a preliminary environmental site assessment for a proposed road improvement project for the Illinois Department of Transportation (IDOT). Thank you and please do not hesitate to call me at (217) 300-2996 if you have any questions about this request.

Sincerely,
Laura Quirk

10/23/2019

Pursuant to the Freedom of Information Act, I hereby request the following records:

All communications and documents between the EPA and any contractors hired to create Flash games for the EPA's "Recycle City" website. These records would include emails between staff and the contractors, agreements for the games to be produced, progress reports, and communications within the EPA regarding publishing the finished product. Additionally, I am also requesting EPA communications, including e-mails, regarding the use of music from the Nintendo DS game "Yoshi's Island DS" in the EPA Recycle City flash game. The use of this music was reported widely in early 2019 after a Twitter post by @ForestIllusion, stating "Fun fact: The United States government stole the underground theme in Yoshi's Island DS for the Environmental Protection Agency's flash game about recycling. The song can be heard right after pressing the start button." The music was since removed from the game and an EPA spokesperson responded "We are looking into whether the contractor received permission to use the music, to the extent permission was necessary in this instance."

The requested documents will be made available to the general public, and this request is not being made for commercial purposes.

In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not.

EPA-R9-

			My firm is performing environmental due diligence activities for a client interested in lending on the real estate at 1004 New Holland Avenue in Lancaster, PA. The site is known as the Burle Business Park and was formerly the RCA Corporation site. General Electric ("GE") acquired RCA Corporation in 1986 and transferred ownership of the property to Burle Industries, Inc. in 1987. At that time, GE retained ownership of a 15-acre portion of the site known as the GE Property (1350 Pleasure Road). We are aware that an Administrative Order on Consent was signed between GE and the USEPA on December 16, 1988 that required GE to perform environmental investigation and remediation activities. The remediation activities included the installation and continued operation of a groundwater recovery and treatment system. The GE groundwater recovery and treatment system was operating and later incorporated two (2) groundwater wells located on the Burle Business Park property in September, 1992.

RE: Freedom of Information Act Request

Dear Ms. Forrest,

Pursuant to my rights under the Freedom of Information Act, I ask to obtain a copy of the following if possible:

As of December 2018, public comments were closed regarding Requests for Nominations: Drinking Water Contaminants for the Fifth Contaminant Candidate List uploaded to the Federal Register and regulations.gov, under Docket ID No. EPA-HQ-OW-2018-0594. While 29 comments were submitted, over 10 were concerned about adding Legionella Pneumophila to the list of contaminants. I'd like to request documentation on your most recent analysis of Legionella Pneumophila and its impact on California water systems.

I ask for a determination on this request within 20 days of your receipt of it, and an even prompter reply if you can make that determination without having to review the record[s] in question.

If you determine that any or all of the information qualifies for an exemption from disclosure, I ask you to note whether, as is normally the case under the Act, the exemption is discretionary, and if so whether it is necessary in this case to exercise your discretion to withhold the information.

If you determine that some but not all of the information is exempt from disclosure and that you intend to withhold it, I ask that you redact it for the time being and make the rest available as requested.

In any event, please provide a signed notification citing the legal authorities on which you rely if you determine that any or all of the information is exempt and will not be disclosed.

I am requesting additional information that is NOT available in the MyProperty search system.

10/8/2019

Specifically, in this case, the online MyProperty reports â€œMedia Affectedâ€ as Soil and Ground Water, but it does not show how it is affected. The online report references the Phase I Environmental Assessment was completed on 5/16/2011. I am requesting a copy (electronic or hard copy) of that Assessment report, along with any other public/non-confidential reports in this Brownfields process that may provide data that explains the data gap in the MyProperty report.

A very important part of a Phase I ESA is to request and review federal environmental records of the subject Site and its adjoining properties. ENVISION would appreciate your cooperation in assisting us in determining if the subject Site has been adversely impacted by any spills or discharges of hazardous materials or petroleum products by the present or past operators of the subject Site, by adjoining properties, or other potential offsite sources that you may be aware of.

The following lists some of the information of interest regarding the referenced Site:

- Hazardous waste generators listings and disposal records (RCRA);
- RCRA Permits (Part A+B, if applicable);
- Community Right-to-Know information (SARA);
- Water quality (drinking water and groundwater) reports and existence of any wells for the subject Site and the surrounding area;
- Radon testing (local area or onsite);
- Superfund notifications;
- Records of PCB-containing materials onsite;
- Existence of any wetlands either onsite or locally;
- Information pertaining to material dumping and/or landfilling onsite or on adjacent properties;
- Any records of spills or other incidents that may have an environmental impact on a site;
- Agency inspection/compliance records;
